To the citizens of Bucks County, Pennsylvania:

The comprehensive annual financial report of the County of Bucks, Pennsylvania for the fiscal year ended December 31, 2015, is hereby submitted. Responsibility for both the completeness and fairness of the data and its presentation, including all disclosures, rests with the County's management. The County has implemented the Governmental Accounting Standards Board's Statement No. 34 "Basic Financial Statements and Management Discussion and Analysis – for State and Local Governments." To the best of my knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the County in accordance with accounting principles generally accepted in the United States of America. All disclosures necessary to enable the reader to gain an understanding of the County's financial activities have been included.

The comprehensive annual financial report is presented in three sections: introductory, financial and statistical. The introductory section includes this transmittal letter, the Certificate of Achievement for Excellence in Financial Reporting for the fiscal year ended December 31, 2014, the County's organizational chart and a list of the County's principal officials. The financial section includes the independent auditors' report, Management's Discussion and Analysis, the basic financial statements, required supplementary information and the combining and individual fund financial statements and schedules for the year ended December 31, 2015. The statistical section includes selected financial and demographic information, generally presented on a multiyear basis.

Accounting principles generally accepted in the United States of America require that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to compliment MD&A and should be read in conjunction with it. The County of Bucks MD&A is immediately following the report of the independent auditors.

The County of Bucks, one of the three original counties founded by William Penn in 1682, consists of fifty-four municipalities with a population of approximately 627,367 residing in 614 square miles. Since January 1, 1992 the County has operated under the provisions of the Second Class A County Code as enacted by the General Assembly of the Commonwealth of Pennsylvania.

A three member Board of County Commissioners performs all of the County's legislative and executive functions. The Controller is elected as the County's Chief Financial Officer and supervises the fiscal affairs of the County. The Treasurer is elected to receive and receipt all monies due or accruing to the County including the deposit and investing of surplus funds. The Court of Common Pleas is part of the Unified Judicial System provided for by the Pennsylvania Constitution. Court related row offices include the Coroner, Clerk of Courts, District Attorney, Prothonotary, Recorder of Deeds, Register of Wills and Sheriff.

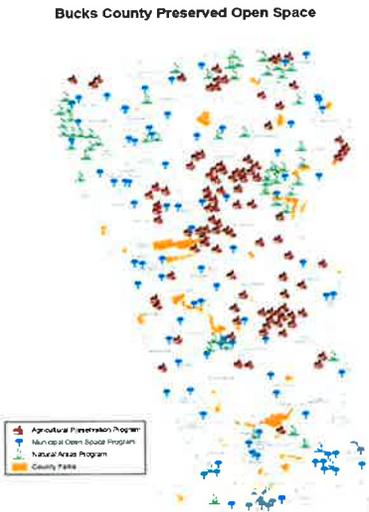

This report includes all funds of the County. The County provides a full range of human services that include the operation of a nursing facility, county-wide health services, park system and judicial system. In addition to general County activities, the Commissioners have financial accountability for the Bucks County Community College, the Bucks County Community College Authority, the Bucks County Free Library, the Bucks County Drug and Alcohol Commission, Inc., the Bucks County Airport Authority, and the Bucks County Housing Authority. Therefore, these component units are included in the reporting entity. The County Commissioners are also responsible for appointing the members of the boards of a number of other authorities and advisory boards, but the County's accountability for these organizations does not extend beyond the appointments. (See Note 2 to the financial statements.)

ECONOMIC CONDITION AND OUTLOOK

The County of Bucks is located in the southeastern part of Pennsylvania in the Washington/Boston corridor. It continues to grow along with the neighboring counties in Pennsylvania and New Jersey that make up the Philadelphia metropolitan area. Although the national economy affects Bucks County and the region, the County's 4.5% unemployment rate compared favorably to the statewide rate of 5.1% and the national rate of 5.3% at December 31, 2015. Bucks County's location, and the diversity of its labor force and employment base, will continue to make it attractive to businesses throughout this decade.

COUNTY OPEN SPACE PROGRAM

Bucks County continues to be one of Pennsylvania’s fastest growing counties. In November 1995, a twenty-four member Open Space/Farmland Preservation Task Force was created “to develop a practical plan to protect in perpetuity those natural resource areas and farmlands deemed essential to preserve the unique character of Bucks County.”

The Bucks County Open Space Program continues to play a large role in the preservation of land in the County. Unique to the Delaware Valley Region, the program’s successes are due to a diversity of open space and farmland preservation funding opportunities. The program has provided residents and municipalities with the best available funding and technical assistance for open space and farmland preservation.

Implementation of the Open Space Program was divided into four main components: the Agricultural Land Preservation Program, the Parkland Acquisition Program, the Municipal Open Space Program, and the Natural Areas Program. Each component receiving funds through the program has specific criteria for the preservation of land in the County of Bucks.

The achievements of the Open Space Program for the year 2015 are as follows:

- *Farmland preservation* – In 2015, the Agricultural Land Preservation Program continued to work toward its goal of preserving 17,000 acres by the year 2017. The purpose of the County’s Agricultural Land Preservation Program is to continue to protect the future of a viable agricultural community while allowing a farmer to pass on the family farm, and expand or improve the farm operation or sell the farm to another for continued agricultural production. The landowner retains ownership of the land, including the right to farm the land or to sell the land. Since its formation in 1989, the program has preserved over 15,000 acres, including the 71 acre Pavlica Farm and 105 acre Crouse Farm in Durham Township in 2015. The County remains the leader among Pennsylvania counties in entering into partnerships with municipalities in acquiring agricultural conservation easements.

The Pavlica Farm, Durham Township

- The Bucks County Agricultural Land Preservation Program is regulated by the Pennsylvania Department of Agriculture, Bureau of Farmland Preservation and governed by Pennsylvania Act 43 as well as County guidelines. The program utilizes funds from state, county, and local governments to purchase conservation easements on productive farmland. Farms considered for preservation are prioritized according to soil quality, location, conservation practices, and threat of development.

The Crouse Farm, Durham Township

- *Parkland acquisition* - Bucks County has an ongoing goal of acquiring land in order to reduce parkland deficits, and to expand and create regional parks. The establishment of parks to connect population centers and disjointed parkland tracks in areas such as stream valleys and other natural corridors will make it possible to create recreational areas for hiking, jogging, biking, and other similar recreational activities. The County's goal is to develop as many useful and enjoyable trails along these corridors as possible, allowing residents, and tourists alike to use the County park system, for enjoyment of outdoor activities such as picnicking, hiking, walking, bicycling, fishing, and boating. The county consists of nine extensive park systems including: Core Creek, Lake Towhee, Peace Valley, Playwicki, Ringing Rocks, Silver Lake, Stover-Myers Mill, Tinicum, and Tohickon Valley totaling over 8,500 acres.
- *Municipal open space* - The Municipal Open Space Program offers local governments an alternative opportunity to preserve farmland that may not meet the standards of the Agricultural Land Preservation Program. Each open space plan details a municipality's resources suitable for preservation and the steps needed to protect them. All of the 54 municipalities have completed an open space plan, a prerequisite to participate in the County program. The Bucks County municipal governments have together protected over 3,550 acres of open space. All properties preserved with County funds are restricted from further development through the use of deed restrictions or conservation easements. Municipalities continue to use the Municipal Open Space Program as a vital way to plan for the preservation of their resources.
- *Natural areas* - The Natural Areas Program, under the umbrella of the Bucks County Open Space Program, has completed 88 projects, protecting over 3,700 acres. The Natural Areas Program provides financial assistance to protect significant examples of biological diversity throughout the County. There remains approximately \$1.4 million in competitive funds which is available to preserve properties with unique natural features. The Natural Areas Inventory of Bucks County identifies 13 conservation landscapes that represent Bucks County's natural diversity including wildlife habitat, streams, forests, wetlands, unique geological formations and more. Parcels within these areas are field assessed for ecological importance and conservation value. Funding through the program is available to municipalities and land trusts and may be used to acquire conservation easements on privately owned land as well as fee simple purchases that ensure perpetual natural resource protection. In 2015, a total of 9 properties were protected under the Natural Areas Program.

YEAR IN REVIEW

The year 2015 represents a vibrant time of capital growth, service excellence and fiscal prudence.

- The Bucks County Division of Emergency Services upgraded its mass emergency notification system. The upgrade, part of a regional contract that also impacts Bucks, Chester, Delaware, Montgomery and Philadelphia counties, includes a new identification, ReadyBucks, which replaces the former ReadyNotifyPA brand. The new ReadyBucks notification system will be used to notify all subscribers before and during a major emergency. It will also deliver alerts of significance that are selected by residents, such as weather, health, crime and other community notifications. The system can also note any functional and access needs information that would be important to first responders in the event of an emergency. In addition to the County and municipal levels, multiple school districts within Bucks are exploring the use of ReadyBucks as a notification tool for winter weather delays and closures.
- In April 2015, the Bucks County Children and Youth Social Services Agency celebrated its 50th anniversary of service to the Bucks County community. Appointed by the Board of County Commissioners, the Bucks County Children and Youth Advisory Boards members are citizens who have an interest and commitment to promoting the welfare of vulnerable children and their families. The Board's purpose is to recommend plans and policy to the Commissioners and to aid and assist in the establishment, development and operation of social services to children and youth in need in Bucks County.
- During early October, the Bucks County Police Chief's Association joined the Board of Commissioners and the Bucks County District Attorney's Office to launch BodeHITS, a new countywide initiative in the field of DNA testing. It is the first program of its kind in the United States - uniting all 40 Bucks County municipal police departments to capitalize on the latest forensic technology to fight crime. This collaborative effort will allow police from multiple departments to work on cases collectively, submit forensic evidence to the lab and have the technology link crime scene evidence from multiple jurisdictions together and also identify criminals who committed these crimes.
- The County once again held a successful annual Household Hazardous Waste Collection Program. This was the fourteenth year the five southeastern Pennsylvania counties have worked together to sponsor a regional program. Bucks County's program consisted of five different hazardous waste drop off points throughout the County. The regional household hazardous waste collection program provides an opportunity for residents to properly dispose of many materials that are not able to be disposed by any other means, thereby keeping these products from contaminating our water supplies or soil. This year's collection had 6,231 County participants with 774,345 pounds of material collected which is an average of 124 pounds of material per participant.
- The Bucks County Recorder of Deeds office was honored at the Annual Conference of the National Association of County Recorders, Election Officials and Clerks (NACRC), by receiving one of two best practices awards. The Recorder of Deeds was chosen for their creation and continuation of the veterans' programs. The veterans discount ID card was created in 2011 and now boasts over 1,300 participating businesses and over 10,000 veterans receiving discounts. The program continues to grow as events are held several times a month at different locations throughout the County.
- Bucks County Emergency Management Agency and the United Way of Bucks County are working in partnership to establish Bucks County Voluntary Organizations Active in Disaster (Bucks VOAD) in order to prepare the County for a possible large-scale disaster or emergency. Bucks VOAD is a coalition of individuals, organizations and companies that are willing and able to help in an emergency. If a disaster occurs, VOAD will mobilize those who have signed up to help with the most crucial needs, including shelter, food, medical assistance and any other applicable sectors.

FINANCIAL INFORMATION

Internal Control Structure. Management of the County of Bucks is responsible for establishing and maintaining an internal control structure that is designed to ensure that the assets of the County are protected from loss, theft or misuse, that transactions are executed in accordance with management's integrity, and to ensure that adequate accounting data is compiled to allow for preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. The internal control structure is designed to provide reasonable, but not absolute assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management. An integral function of the Controller's Office Internal Audit staff is to test the design and effectiveness of the internal control structure.

Single Audit. As a recipient of Federal and State financial assistance, the County is also responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is subject to periodic evaluation by management and the internal audit staff of the County.

As part of the County's single audit, tests are made to determine the adequacy of the internal control structure, including that portion related to Federal financial assistance programs, as well as to determine that the County has complied with applicable laws and regulations. Historically, the results of the County's single audits have indicated no instances of material weaknesses in the internal control structure or significant violations of applicable laws and regulations.

Budgeting Controls. The County maintains budgetary controls, the objective of which is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the County Commissioners. Activities of the general fund, special revenue funds, debt service fund and capital projects funds are included in the annual appropriated budget. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established by departmental classification. The County also maintains an encumbrance accounting system as an additional technique of budgetary control. Encumbrances are liquidated at year-end. Encumbrances generally are not reappropriated as part of the following year's budget, except for capital projects.

Financial Policies. As demonstrated by the statements and schedules included in the financial section of this report, the County continues to meet its responsibility for sound financial management. The County budgetary guidelines were for all County departments to keep the level of service without increasing expenditures. Each department was tasked to maintain departmental expenditures with little or no increase in 2015.

The County has obtained an "Aaa" rating from Moody's Investors Service and obtained an "AAA" rating from Standard and Poor's Corporation on general obligation issues.

Cash Management. Cash temporarily idle during the year was held in interest bearing demand deposits or invested in certificates of deposit and repurchase agreements. The Pension Trust Fund's investment portfolio also includes corporate bonds, stocks and mutual funds. The average yield on cash and investments in the governmental fund types was .16%. Interest earnings for the governmental activities totaled \$282,173 in 2015.

The County's investment policy is to minimize credit and market risks while maintaining a competitive yield on its portfolio. Accordingly, 99.98% of all deposits were either insured by federal depository insurance or collateralized. Deposits are collateralized by a pledge or assignment of assets pursuant to Act No. 72 of the General Assembly of the Commonwealth of Pennsylvania.

Risk Management. During 2015, the County continued a self-insurance program for medical benefit coverage and hospitalization, workers' compensation, general liability and auto liability. As part of this comprehensive program, resources are being accumulated in the general fund to fund current costs as well as potential future liabilities. Excess coverage is currently maintained with a third party for workers' compensation and auto liability.

JUSTICE CENTER

On Saturday, January 10, 2015, a new era dawned for court operations in Bucks County with the dedication and ribbon cutting of the new, 285,000-square foot Justice Center in Doylestown. During a ceremony that featured the Board of Bucks County Commissioners, the Board of Judges and Senior Judges, as well as local, state and federal dignitaries, President Judge Jeffrey L. Finley led the dedication of the Bucks County Justice Center.

Judge Finley focused on the growth of Bucks County since the current Courthouse/Administration buildings were completed in the early 1960's. He cited increased court requirements, security issues, and changes in technology, praising leaders of the project for their vision and perseverance. It is the fourth courthouse built in Doylestown Borough, following progressive facilities erected in 1812, 1878 and 1960-62.

HIGHLIGHTED DEPARTMENT

Each year, the County selects a department to highlight for its accomplishments and efforts. This year, the County has chosen to focus on the Department of Emergency Communications.

The Bucks County Department of Emergency Communications was established on July 13, 1963 under the Bucks County District Attorney's Office to provide communications for County police departments. During the late 1970's, emergency medical and fire communications services were added to the communication system.

The Bucks County Department of Emergency Communications currently reports under the Emergency Services Division of the County. Director Audrey R. Kenny leads a total staff of 148 people (comprised of dispatchers, supervisors and managers). The department provides emergency communications services for over 130 agencies (EMS, Fire and Police).

In 2015, the Department handled over 500,000 police complaints, 19,500 fire calls and 53,000 EMS Calls. In total they handled approximately 950,000 phone calls during the course of the year. The 9-1-1 Center handles about 2,800 calls per day and almost 2/3 of those calls are from wireless phones.

In August 2015, the department implemented text to 911. The primary benefit of the service is for the deaf and hard-of-hearing community. It also allows for callers to have another means to contact 911 in times when a voice call is just not possible for safety reasons.

In October 2015, the Department completed a \$41.94 million narrowbanding project. This project was started in 2010 as a result of a Federal Communications Commission (FCC) mandate. The new radio system consists of 24 tower sites versus 19 under the old system. The new digital equipment has a higher voice quality that makes transmission stronger and louder. The project also required the purchase of 5,000 new radios for police, fire and emergency medical responders. This equipment has provided the emergency response community with the most modern communications network in the region, as Bucks County was the first in Southeastern Pennsylvania to complete the transition.

The Department is constantly planning for the future. They are currently working on the deployment of a regional Emergency Services IP Network. This will allow Bucks County to have seamless interconnections with our neighbors in the surrounding Counties and the City of Philadelphia. In addition, the Department is working on implementing a new Computer Aided Dispatch (CAD) System to replace the current system which dates back to 1983.

The Bucks County Department of Emergency Communications has always been a leader in their field. In recognition of that in November 2015, Governor Wolf appointed Director Audrey Kenny to the Pennsylvania 9-1-1 Advisory Board. Kenny is one of six 9-1-1 Directors from across the State appointed to that Board of 36 people.

The residents of Bucks County can rest assured knowing that the dedicated men and women of the 9-1-1 Center are among the best trained and best equipped Emergency Communications Centers in the State. The staff is on duty 24 hours a day, 7 days a week, and 365 days a year, ready to take the call when help is needed. They will ensure that the person in distress promptly receives the assistance required for their situation.

OTHER INFORMATION

Independent Audit. The accounting firm of Zelenkofske Axelrod LLC, Independent Certified Public Accountants, was selected to perform an audit of the County's basic financial statements in order for the County to meet the requirements of the Federal Single Audit Act of 1984 and related OMB Circular A-133. The independent auditors' report on the basic financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The independent auditors' reports related specifically to the single audit are presented in a separate report.

Litigation. In the normal course of business various claims and suits are pending against the County. In the opinion of counsel, the amount of such losses that might result from these claims and suits, if any, would not materially affect the financial position of the County, with the exception of the claim disclosed in note 22.

Awards. The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the County for its comprehensive annual financial report for the fiscal year ended December 31, 2014. This was the thirty-first consecutive year that the County has received this prestigious award. In order to be awarded a Certificate of Achievement, the County published an easily readable and efficiently organized comprehensive annual financial report. This report satisfied both accounting principles generally accepted in the United States of America and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments. The preparation of the comprehensive annual financial report on a timely basis was made possible by the dedicated service of the entire staff of the Controller's Office. I wish to express my sincere appreciation to each member of the office for the contributions made in the preparation of this report.

Sincerely,

Kimberly S. Doran, CPA
Acting Controller

INDEPENDENT AUDITORS' REPORT

County Commissioners
County of Bucks
Doylestown, Pennsylvania

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the COUNTY OF BUCKS, as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the COUNTY OF BUCKS' basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the discretely presented component units' financial statements for the Bucks County Airport Authority, the Bucks County Community College, the Bucks County Community College Authority, the Bucks County Drug and Alcohol Commission, the Bucks County Free Library and the Bucks County Housing Authority which represent 100% of the assets, net position, and revenues of the aggregate discretely presented component units. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for those aggregate discretely presented component units, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statements of the Bucks County Community College, the Bucks County Community College Authority, the Bucks County Free Library and the Bucks County Airport Authority were not audited in accordance with *Government Auditing Standards*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the COUNTY OF BUCKS, as of December 31, 2015, and the respective changes in financial position, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Adoptions of Governmental Accounting Standards Board Pronouncements

As described in Note 1 to the financial statements, in 2015 the COUNTY OF BUCKS adopted the provisions of Governmental Accounting Standards No. 68, "*Accounting and Financial Reporting for Pension – an amendment of GASB Statement No. 27,*" the provisions of Statement No. 71, "*Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68*". Our opinions are not modified with respect to these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of pension liability and plan fiduciary net position, schedule of county contributions, schedule of investment returns, and budgetary comparison schedules on pages 5 through 14, 71, 72, 73, and pages 74 through 80 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the COUNTY OF BUCKS' basic financial statements. The introductory section, combining and individual fund financial statements and budget and actual schedules (other supplementary information), and statistical section are presented for the purposes of additional analysis and are not a required part of the financial statements.

The combining and individual fund financial statements, budget and actual schedules, combining statement of changes in assets and liabilities – all agency funds, schedules of capital assets, and schedule of county general obligations payable are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements, budget and actual schedules, combining statement of changes in assets and liabilities – all agency funds, schedules of capital assets, and schedule of county general obligations payable are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

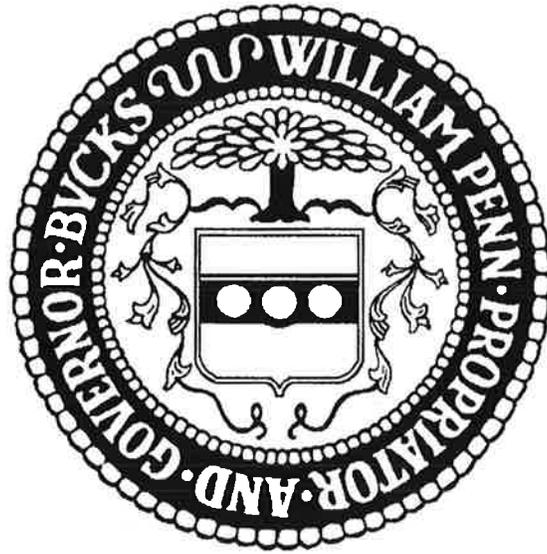

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 30, 2015 on our consideration of the COUNTY OF BUCKS' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the COUNTY OF BUCKS' internal control over financial reporting and compliance.

COUNTY OF BUCKS MANAGEMENT'S DISCUSSION AND ANALYSIS

This narrative overview and analysis of the financial statements of the County of Bucks, Pennsylvania (the County) for the calendar year ended December 31, 2015 has been prepared by the County's management. The information presented here should be read in conjunction with the additional information contained in our letter of transmittal, which can be found beginning on page V, and the County's financial statements immediately following this discussion and analysis.

Financial Highlights

- At the end of the current calendar year, the County's net position was \$212,579,783 resulting from an excess of its assets over its liabilities, however, its unrestricted net position showed a deficit balance of \$(280,954,536).
- The County's property tax rate remained at 23.20 mills for calendar year 2015. The County's ratio was adjusted from 25% of the 1972 fair market value to 100% of the 1972 fair market value effective January 1, 2005.
- The County's total net position increased by \$2,415,267 during the current calendar year. This is .51% of the annual operating costs of the County. The increase in net position is attributed to the decrease in expenses and increase in capital grants and contributions. The County's debt service millage decreased to 4.4497 in 2015.
- For the current calendar year, the County's governmental funds reported a combined ending fund balance of \$86,052,482, a decrease of \$10,566,376 from the prior year. This year's ending balance includes \$52,646,746 of unassigned fund balance, which is available for spending at the County's discretion in accordance with future approved budgets. The debt service fund reported a negative unassigned fund balance of (\$2,686,575) at year end.
- The fund balance of the County's general fund at the end of the calendar year was \$52,646,746, an increase of \$2,990,706 from last year. The unassigned general fund balance was \$52,646,746. General fund revenues for the current year were \$209,598,455 as compared to \$202,749,972 for the prior year, while current year expenditures amounted to \$187,701,936 compared to \$185,854,950 for last year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction and overview of the basic financial statements of the County of Bucks. The County's basic financial statements are comprised of:

- *Government-wide financial statements*, which provide both long-term and short-term information about the County's overall financial condition.
- *Fund financial statements*, which provide a more detailed look at major individual portions, or funds, of the County.
- *Notes to the financial statements*, which explain some of the information contained in the financial statements and provide more detailed data.
- *Other supplementary information*, which further explains and supports the information in the financial statements.

Government-wide financial statements. The government-wide financial statements report information about the County as a whole using accounting methods similar to those used by a private-sector business. The two statements presented are:

The statement of net position, which includes all of the County's assets and liabilities, except for fiduciary and agency funds, with the difference between the two reported as net position. Over time, increases or decreases in net position are an indicator of whether the County's financial position is improving or deteriorating.

COUNTY OF BUCKS MANAGEMENT'S DISCUSSION AND ANALYSIS

The statement of activities presents revenues and expenses and their effect on the change in the County's net position during the current year. These changes in net position are recorded as soon as the underlying event giving rise to the change occurs, regardless of when cash is received or paid.

The government-wide financial statements of the County are reflected in two distinct categories:

- *Governmental activities* are primarily supported by taxes and state and federal grants. The governmental activities include the County's basic services such as general government, judiciary, corrections, authorities, social services, bridges, health, public safety and the financing activities of the County's six discretely presented component units: the Airport Authority, the Community College, the Community College Authority, the Drug and Alcohol Commission, the Free Library and the Housing Authority.
- *Component units* are legally separate entities for which the County is financially accountable or has oversight responsibility. Financial information for these component units is reported separately from the financial information presented for the primary government. The County's government-wide financial statements contain information for six distinct component units of Bucks County: the Airport Authority, the Community College, the Community College Authority, the Drug and Alcohol Commission, the Free Library and the Housing Authority.

A third category which is used by some entities is *business-type activities*. Business-type activities are supported by user fees and charges, which are intended to recover all or a significant portion of their costs. The County does not operate any activities that fall into this category. The County considered our 9-1-1 emergency response operation and our County nursing home as possible business-type activities. In both cases the majority of the revenue is controlled by the State and does not cover the operating costs. Therefore, the primary government of the County of Bucks will only include governmental activities.

Fund financial statements. The fund financial statements provide detailed information about the County's most significant funds, not the County as a whole. Funds are accounting devices for groupings of activities that enable the County to maintain control over resources that have been segregated for particular purposes or objectives. Some funds are required by state law. Other funds are established to control and manage resources designated for a specific purpose. All of the funds of the County of Bucks can be divided into two categories: governmental funds and fiduciary funds.

- ***Governmental funds.*** The governmental funds are used to account for the financial activity of the County's basic services, similar to those described for the governmental activities in the government-wide financial statements. However, unlike the government-wide statements, which provide a long-term focus of the County, the fund financial statements focus on a short-term view of the inflows and outflows of spendable resources, as well as on the balances of spendable resources available at the end of the calendar year. The financial information presented for the governmental funds is useful in evaluating the County's short-term financing requirements. To help the readers of the financial statements better understand the relationships and differences between the long-term view of the government-wide financial statements from the short-term view of the fund financial statements, reconciliations are presented between the fund financial statements and the government-wide statements.

The County maintains twenty individual governmental funds. Financial information is presented separately for the general fund, the behavioral health services fund, the children & youth services fund, the debt service fund, and the 2013 series bond fund which are considered to be major funds. Data for the remaining sixteen funds are combined into a single aggregated presentation. Individual fund data for each of these non-major governmental funds is presented in the form of combining statements in the other supplementary information section of this financial report.

**COUNTY OF BUCKS
MANAGEMENT’S DISCUSSION AND ANALYSIS**

- **Fiduciary funds.** The fiduciary funds are funds for which the County is the trustee or fiduciary. The County of Bucks is the trustee, or fiduciary, for its employees’ pension plan. It is also responsible for other assets that are collected and held for others until the funds are allocated to the organizations, government agencies or private parties to which they belong. The County is responsible for ensuring that the assets reported in these funds are used for their intended purposes. These fiduciary activities are reported in a separate statement of fiduciary net position and changes in fiduciary net position. They are not reflected in the government-wide financial statements because the assets are not available to support the County’s operations.

The following chart summarizes the various components of the County’s government-wide and fund financial statements, including the portion of the County government they cover, and the type of information they contain.

Government-wide Financial Analysis

Net position. As noted earlier, net position are useful indicators of a government's financial position. During 2015, net position increased \$2,415,267 or 1.15% to \$212,579,783.

Capital assets (land, buildings, equipment, infrastructure and bridges) less any outstanding debt issued to acquire these assets comprise a large portion of the County's net position, \$456,055,104. Although these capital assets assist the County in providing services to its citizens, they are generally not available to fund the operations of future periods.

A portion of the County's net position, \$37,479,215 is subject to external restrictions imposed by creditors, grantors or laws and regulations. The remaining component of net position is the unrestricted net assets, which ended the calendar year with a deficit balance of \$(280,954,536). This deficit is the result of the County having long-term commitments that are greater than currently available resources. The increase in net position was affected by the increase in judiciary and public safety program revenue and the decrease in general and social services expenses and by the decrease in interest on long term debt expenses.

Following is a summary of the County's assets, liabilities and net position:

**COUNTY OF BUCKS
MANAGEMENT'S DISCUSSION AND ANALYSIS**

Changes in net position - The total cost of all County functions and programs this year was \$472,641,558. These expenses cover a wide range of services, of which approximately 48.35% are related to social services.

The County's total revenues this year were \$475,056,825. This is an increase of \$7,799,281 from 2014. The County's property tax rate remained at 23.20 mills in 2015. Approximately 39.53% of all revenue comes from property taxes. State, Federal and local grants account for another 46.56%, with the remainder of the revenue coming from user charges, fines, fees and various other sources.

Governmental Activities

In 2015, the County's net position increased by \$2,415,267. Reasons for the change are described in the following pages.

The following table summarizes the County's governmental programs. Costs, program revenues and net cost are shown in the table. The net cost shows the financial burden that was placed on the County's taxpayer by each of these functions.

	Governmental Programs

Net costs indicate the amount of support required from taxes and other general revenues for a program of the County. The cost of all governmental activities this year was \$472,641,558; however the amount that taxpayers paid for these programs through tax payments was only \$187,782,458. The federal and state governments subsidized certain programs with grants and contributions in the amount of \$221,192,816, while those who benefited from the programs paid \$65,134,495 through fees and charges. Unrestricted grants and contributions and other general types of revenues accounted for the balance of revenues in the amount of \$947,056.

Taxes account for \$187,782,458 of the revenue. In 2015, the real estate tax rate remained at 23.20 mills. Prior to an increase in 2012, the millage rate had remained constant for five straight years.

Charges for services decreased by \$2,779,880 in 2015. Charges for services include licenses and fees, fines, permits and commissions collected by County courts, Row Offices and departments.

Health & Public Safety fee revenue decreased by \$1,666,280 related to a decrease in Emergency Response 911 fees.

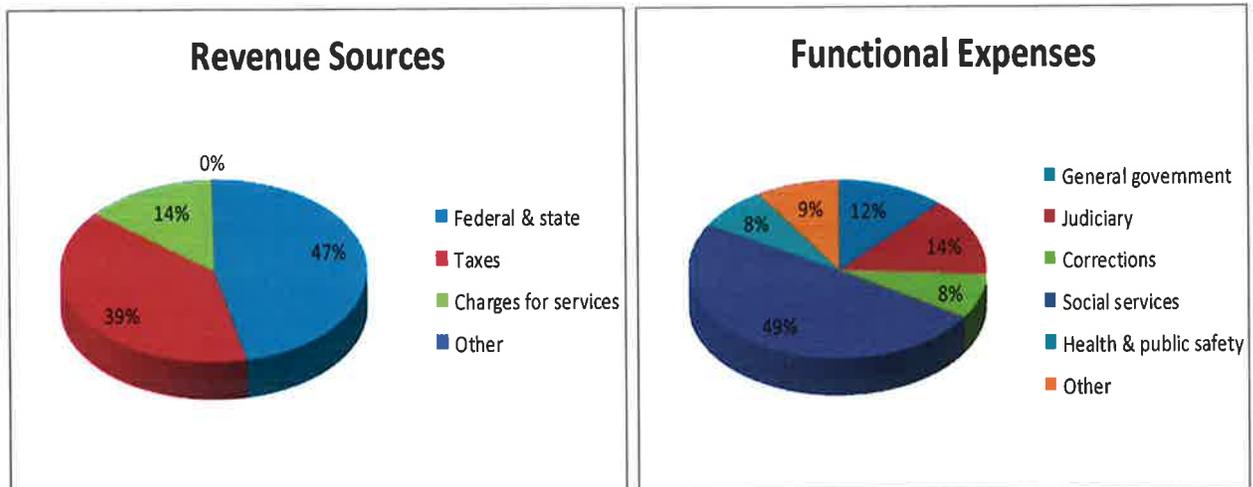

Investment earnings remained consistent in 2015 due to the low interest rates. The average rate of return in 2015 was .16% and in 2014 was .12%.

COUNTY OF BUCKS MANAGEMENT'S DISCUSSION AND ANALYSIS

Financial Analysis of the Government's Funds

Governmental funds. The purpose of the County's governmental funds is to provide financial information on the short-term inflow, outflow and balance of spendable resources. This information is useful in assessing the County's ability to meet its near-term financing requirements. Unreserved fund balance serves as a useful measure of the County's net resources available for spending at the end of the calendar year. At the end of calendar year 2015, the County's governmental funds reported a combined fund balance of \$86,052,482, a decrease of \$10,566,376 over last year. Of the total fund balance, \$24,399,152 represents restricted fund balance, which indicates that it is subject to external restrictions imposed by creditors, grantors or laws and regulations. The nonspendable fund balance includes \$11,680,852 of loans receivable not available for current use. The \$52,646,746 unassigned fund balance in the general fund is available for future spending in accordance with approved budgets. The debt service fund reported a negative unassigned fund balance of (\$2,686,575) at year end.

Restricted, Assigned and Unassigned Fund Balances

The behavioral health services fund, the children and youth services fund, and the mental health/developmental programs fund have no fund balances. The general fund, the primary operating fund of the County, reported an unassigned fund balance of \$52,646,746 at the end of the current calendar year. Ratios of the general fund's unassigned fund balance and total fund balance to its total expenditures can be useful indicators of the general fund's liquidity. These ratios for the year just ended were 28.05% and 28.05%, respectively.

The total fund balance of the general fund increased by \$2,990,706 during the current calendar year. Some of the key factors for this increase are the increase in real estate taxes recorded by \$5,154,414 and by intergovernmental revenues increased by \$1,333,383.

The behavioral health services fund has been in operation since 1997. While significant dollars pass through this fund, the County has been able to operate this fund without any local tax contribution.

The children & youth services fund is comprised of two primary groups. The first is the protective services component and the second is the judicial section that deals with juveniles that have broken the law. Most of the costs of these programs are funded by federal and state dollars. The County covers the difference between the total cost of the program and the outside funding with a transfer from the general fund. The County's contribution for 2015 was \$11,141,173 or 19.47% of the total cost of the program. The budgeted contribution was \$11,741,500.

The debt service fund is supported primarily by real estate tax dollars. This fund pays the annual debt obligations of the County. The fund balance decreased by (\$249,645) to a negative fund balance of (\$2,686,575). The County's debt service fund millage decreased from 4.9025 mills to 4.4497 mills for 2015. Debt service payments for principal and interest increased from the prior year. The County used existing bond funds to pay for capital expenditures for the new Court facility, open space preservation, 911 radio system upgrade and other capital items.

The 2013 series bond fund is discussed in the capital asset and debt administration section that follows on page 12 after the General Fund Budgetary Highlights.

General Fund Budgetary Highlights

The County adopts an annual calendar year budget in December for the following year. The County maintains control by departmental classification. The County's current policy is to adopt an operating budget that does not include reserves. The ending fund balance is available for unanticipated expenditures or revenue shortfalls.

**COUNTY OF BUCKS
MANAGEMENT'S DISCUSSION AND ANALYSIS**

The County processes budget adjustments for any cost center that exceeds the approved expenditure budget for a major class category (i.e.: salary & fringe, supplies and services, capital, etc). If money is available from another major class, an administrative process may be used for the adjustment. If a cost center has revenues available that can cover increased expenditures, a budget adjustment increasing both revenues and expenditures is approved at a public meeting of the commissioners. Adjustments for expenditures that exceed budget with no cost center funding available are taken from the budgeted ending fund balance with the approval of the commissioners at a public meeting.

As a general rule the County does not reduce budgets of cost centers that are under budget to cover other cost centers over expenditures. Major budget adjustments for 2015 include a Correctional Facility budget increase for \$748,000. The adjustment was to fund unanticipated costs associated with housing inmates at the prison. The County approved a budget adjustment for an additional \$520,000 for the Neshaminy Manor Nursing Facility to fund increased expenditures. The County Department of Information Services was under budget by \$762,236 and the Controller's Office was under budget by \$398,300. The District Courts were under budget by \$334,816.

The general fund transfers out were \$239,431 under budget. The County's contribution to the Emergency Response 911 Fund was \$4,493,188 and transfers to MH/DP were \$1,566,749 which was \$43,449 less than budgeted. The County transfer to the Children & Youth Fund was \$11,141,173 which was budgeted for \$11,741,500.

**COUNTY OF BUCKS
MANAGEMENT'S DISCUSSION AND ANALYSIS**

Long-term liabilities. At December 31, 2015, the County had \$371,778,260 in long-term liabilities. The following schedule shows a summary of all long-term liabilities.

Long-term Liabilities of Bucks County

	Governmental Activities 2015	Governmental Activities 2014	Percentage Change
General obligation bonds and notes	\$ 276,253,000	\$ 290,482,000	(4.90%)
Unamortized premium	22,157,913	20,335,387	8.96%
Lease rental debt	49,090,024	26,368,553	86.17%
Compensated absences	15,332,615	15,270,633	0.41%
Self insurance claims	8,944,708	9,151,609	(2.26%)
Total	\$ 371,778,260	\$ 361,608,182	2.81%

On February 3, 2016, the Commissioners approved Ordinance #150 authorizing the incurrence of electoral and nonelectoral debt with the issuance of General Obligation Bonds, Series of 2016 in the amount of \$55,255,000. The proceeds of the bonds will be used to finance the current refunding of a portion of the County's outstanding General Obligation Bonds, Series of 2008 and fund the costs of certain capital projects.

Moody's and Standard & Poor's rate the County's bonds. The latest ratings assigned to the County's debt are Aaa by Moody's and AAA by Standard & Poor's. The County of Bucks is limited by state statute to 300% of a three-year average of the total revenues received adjusted for special purpose grants. The County's legal debt margin is \$1,093,288,467 for general obligation bonds and \$1,500,519,343 for general obligation bonds and lease rental debt. Additional information about the County's long-term debt can be found in note 13 to the financial statements.

Economic Factors and Next Year's Budgets and Rates

Bucks County's population grew from 623,205 to 627,367, 0.66% from 2006 to 2015. The market value of taxable real estate decreased over the same period from \$85,482,932 to \$71,716,800. The County has remained primarily a residential and small business community with 76.3%% of the tax base on residential properties. Our ten largest taxpayers account for only 1.16% of the total real estate tax base, with no single taxpayer exceeding .57% of the base.

Effective January 1, 2005, the Commissioners approved changing the existing predetermined ratio from 25% of the 1972 assessed value for all tax parcels to 100% of the 1972 assessed value.

In preparing the 2016 budget, payroll figures were based on union pay scales where settlements were in place. Unsettled unions and non-union compensation rates were set at the base rate for our largest settled union. In establishing the 2016 budget, historical trends and vendor inquires were used as the basis for services that are purchased. Real estate tax revenues were projected to remain constant from 2015, a continuation of the recent trend. Grant and fee income was evaluated on a program-by-program basis.

**COUNTY OF BUCKS
MANAGEMENT'S DISCUSSION AND ANALYSIS**

The County adopted a formal fund balance policy. The County will maintain a reserved general fund balance equal to 10% of the total operating budget expenditures net of total expenditures of any governmental fund in which sufficient cash reserve is maintained within the fund. The policy is designed to protect the County's financial stability in the event of unforeseen emergencies and economic downturns.

COUNTY OF BUCKS, PENNSYLVANIA

**RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO
THE GOVERNMENT-WIDE STATEMENT OF NET POSITION
December 31, 2015**

Total fund balances for governmental funds \$ 86,052,482

Total net assets reported for governmental activities in the statement of net position is different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. Those assets consist of:

Land	\$ 112,893,216	
Construction in progress	82,100,916	
Buildings, net of \$102,468,027 accumulated depreciation	152,729,162	
Improvements other than buildings, net of \$33,765,820 accumulated depreciation	21,168,089	
Machinery and equipment, net of \$116,276,177 accumulated depreciation	29,448,188	
Infrastructure, net of \$6,881,135 accumulated depreciation	9,417,789	
Leasehold buildings and improvements, net of \$29,194,260 accumulated depreciation	<u>89,831,254</u>	
Total capital assets		497,588,614

Net pension obligation is reflected on the statement of net position but is not a current expenditure for the fund statement. 67,239,778

Some of the County's taxes will be collected after year-end, but are not available soon enough to pay for the current period's expenditures, and therefore are reported as unavailable revenues in the funds. 408,733

Long-term liabilities applicable to the County's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. All liabilities-both current and long-term are reported in the statement of net assets. Also, during the year the County issued additional debt. The amount borrowed is received in the governmental funds and increases fund balance. The premium will be amortized as an adjustment of interest expense in the statement of activities over the remaining life of the new debt.

Balances at December 31, 2015 are:

Accrued interest on bonds	\$ (714,680)

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED DECEMBER 31, 2015

Net change in fund balances - total governmental funds \$ (10,566,376)

The change in net position reported for governmental activities in the statement of activities is different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays \$22,635,611 exceeded depreciation \$(16,965,837) in the current period and the increase in leasehold assets. 31,094,901

Net pension obligation is reflected on the statement of net position but is not a current expenditure for the fund statement. (352,431)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. 367,180

Bond proceeds are reported as financing sources in governmental funds and thus contribute to the change in fund balance. In the statement of net assets, however, issuing debt increases long-term liabilities and does not affect the statement of activities. Similarly, repayment of principal is an expenditure in the governmental funds but reduces the liability in the statement of net assets.

Issuance of general obligation bonds and notes	(49,085,000)	
Issuance of lease rental debt	(25,585,000)	
Bond premium	(3,924,424)	
Debt Repayments	<u>63,314,000</u>	
Net adjustment		<u>(15,280,424)</u>

Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the statement of activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. In addition, interest on long-term debt is not recognized under the modified accrual basis of accounting until due, rather than as it accrues. The details are as follows:

Compensated absences	(31,005)	
Amortization of bond premium	(2,101,898)	
Accrued interest on bonds	<u>(714,680)</u>

COUNTY OF BUCKS, PENNSYLVANIA

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2015

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The major accounting principles and practices followed by the County of Bucks, Pennsylvania (the County) are presented below to assist the reader in understanding the financial statements and the accompanying notes. The accounting principles and practices and the format of the financial statements for all funds are presented in conformity with accounting principles generally accepted in the United States of America applicable to governmental units.

A. Reporting Entity

The County has adopted the applicable provisions of the Governmental Accounting Standards Board (GASB), for the purpose of determining the scope of its entity for financial reporting purposes, as more fully explained in Note 2, "Reporting Entity."

B. Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable. As a general rule, the effect of interfund activity has been eliminated or reclassified from these statements.

Interfund balances reported in the fund financial statements are eliminated in the governmental activities column of the statement of net position except for the net residual amounts due between governmental and fiduciary activities which are reclassified. Activity between component units and the primary government is reported as an external transaction.

The statement of activities demonstrates the degree to which the direct expenses of a given function or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or program. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Amounts paid to acquire capital assets are capitalized as assets in the government-wide financial statements, rather than reported as expenditures. Proceeds of long-term debt obligations are recorded as liabilities in the government-wide financial statements rather than as an other financing source. Amounts paid to reduce long-term obligations of the County are reported as a reduction to the related liability, rather than an expenditure.

Net position should be reported as restricted when constraints placed on net position use are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or imposed by law through legislation. The net position restricted for program expenditures result from special revenue funds and the restrictions on their net position use.

COUNTY OF BUCKS, PENNSYLVANIA

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2015

C. Fund Financial Statements

The accounting system of the County is organized on the fund basis. A fund is considered a separate accounting entity with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues, and expenditures or expenses, as appropriate. The funds are segregated for the purpose of recording a specific activity or objective in accordance with special regulations, restrictions or limitations.

Separate fund financial statements are provided for governmental funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

D. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements except for agency funds which have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Real estate taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Amounts paid to acquire capital assets are capitalized as assets in the government-wide financial statements, rather than reported as expenditures. Proceeds of long-term debt obligations are recorded as liabilities in the government-wide financial statements rather than as an other financing source. Amounts paid to reduce long-term obligations of the County are reported as a reduction to the related liability, rather than an expenditure.

Fund financial statements report detailed information about the County. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented as a single column reported as other governmental funds.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this basis of accounting revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers real estate tax revenues to be available if they are collected within 60 days of the end of the current fiscal period. Federal and state reimbursement grants are recorded as revenue when the related eligible expenditures are incurred and the funds are available within 180 days of the end of the year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is made.

Real estate taxes, licenses, grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the County.

The determination of major funds is based on criteria established in GASB 34. The non-major funds are combined in a single column in the fund financial statements. The County reports the following major funds:

COUNTY OF BUCKS, PENNSYLVANIA

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2015 (Continued)

The general fund is the County's primary operating fund. It is used to account for all financial resources except those required to be accounted for in another fund. Revenues of this fund are primarily derived from real estate taxes, state and federal grants, and fees for services. Many of the important activities of the County are accounted for in this fund, including operation of general County government, boards, commissions, and the court system.

The behavioral health services fund accounts for medical assistance funds received from the State of Pennsylvania which are restricted for providing managed health care services to Bucks County residents.

The children and youth services fund accounts for State and Federal revenues that provide a broad range of children and youth services that are restricted to expenditures for those specific purposes. The excess of expenditures over revenues is financed by the general fund.

The mental health/developmental programs fund accounts for state and federal revenue that provides programs for MHDP clients. The excess of expenditures over revenues is financed by the general fund.

The debt service fund accounts for the accumulation of resources used for the payment of interest and principal on all long-term debt of governmental funds.

The 2013 series bond fund accounts for the construction of a new Justice Center, the restoration of existing County facilities, the County's Open Space Program, the Emergency Services narrowbanding project and the acquisition of certain technology upgrades.

Additionally, the County reports the following fiduciary funds:

The pension trust fund is used to account for County and employee pension plan contributions and net investment income to provide for the payment of retirement benefits to the members of the County's retirement system.

Agency funds are used to account for restricted assets held by the County as agent for individuals, private organizations, and other governmental units. During 2015, the County maintained twenty such funds. The row office and district court agency funds are used to account for the collection of fees on behalf of the County and other government agencies. The Tax Claim agency fund is used to collect delinquent taxes for the County, the school districts and other municipalities.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Indirect costs between governmental activities have been eliminated to avoid the "doubling up" effect.

Amounts reported as program revenues include: charges to customers or applicants for goods, services, or privileges provided, operating grants and contributions, and capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as they are needed.

COUNTY OF BUCKS, PENNSYLVANIA

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2015 (Continued)

E. Budgetary Accounting Controls

In accordance with provisions of Public Law of the Commonwealth of Pennsylvania, commonly known as the County Code, the County prepares and adopts a budget on or before December 31, for the following calendar year. The County maintains budgetary control by departmental classification. Budgetary transfers and/or additional appropriations from additional revenues received, or from unexpended funds appropriated but not spent in prior years, must be approved by the County Commissioners. Expenditures cannot legally exceed the appropriations at the budgetary control levels described above. In accordance with State regulations the Commissioners did, by resolution, make supplemental budgetary appropriations between departments. Appropriations lapse at the end of the fiscal year.

Budgets are prepared on a modified accrual basis and are adopted for the general fund, the special revenue funds, the debt service fund, and the capital projects funds.

F. Encumbrances

Encumbrances, which are commitments related to executory contracts for goods or services, are recorded for budgetary control purposes in the general fund, special revenue funds, and capital projects funds. Encumbrance accounting is utilized to assure effective budgetary control and accountability. All encumbrances are liquidated at year end.

G. Cash and Cash Equivalents

The County considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents for the purpose of reporting cash flows.

H. Investments

All investments of the County are stated at fair value.

I. Receivables

Taxes receivable are recorded at face (original levy), and do not include penalty and interest.

J. Loans Receivable

Loans receivable consists of \$11,680,852 loans to various municipalities for the purchase of mobile and portable radios to be used by municipal public safety constituents in the County. The terms of the loans are from one to seven years at 1.5% interest.

K. Interfund Transactions

In connection with financing its operations, the County conducts interfund transactions. Accordingly, to the extent that certain interfund transactions have not been paid or received as of December 31, 2015, appropriate interfund receivables or payables have been established in the fund financial statements.

COUNTY OF BUCKS, PENNSYLVANIA

**NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2015**

L. Capital Assets

Capital assets are defined as long-lived assets of the County as a whole. When purchased, such assets are recorded as expenditures in the governmental funds and as assets in the government-wide financial statements. Capital assets, which include property, plant, equipment and infrastructure assets, are recorded at historical cost. Capital assets are reported in the governmental activities column in the government-wide financial statements. The minimum capitalization threshold is an individual item with a cost of more than \$5,000 and a useful life exceeding one year. Donated capital assets are recorded at the estimated fair value at the time of donation. Easements with an indefinite useful life are considered intangible assets of the County and accordingly are not depreciated.

Depreciation and amortization on capital assets are computed on the straight-line basis over the estimated useful lives as follows:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Land improvements	30 Years
Improvements other than buildings	35 Years
Buildings	50 Years
Building improvements	25 Years
Furniture, fixtures, machinery, and equipment	3-10 Years
Leasehold improvement	10 Years
Infrastructure	50 Years

M. Unearned Revenues

Revenues that are received but not yet earned are recorded as unearned revenues in the County's financial statements. In the County's governmental funds, unearned revenues arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Unearned revenues also arise when resources are received by the government before it has legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the County has a legal claim to the resources, the liability for unearned revenue is removed from the governmental funds' balance sheet and revenue is recognized.

N. Long-term Obligations Payable

In the government-wide financial statements, bond discounts and premiums are deferred and amortized over the life of the bonds using the straight line interest method. Bonds payable are reported net of the applicable bond premium or discount. This method approximates the effective method which is GAAP.

In the fund financial statements, governmental fund types recognize bond premiums and discounts as well as bond issuance costs during the current period. The face amount of the debt issued is reported as other financing sources while discounts and premiums on debt issuance are reported as other financing uses. Issuance costs are reported as debt service expenditures.

COUNTY OF BUCKS, PENNSYLVANIA

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2015

O. Fund Balance

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy based primarily on the extent to which the County is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- Nonspendable fund balance – This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact.
- Restricted fund balance – This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.
- Committed fund balance – This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of Commissioners. These amounts cannot be used for any other purpose unless the Board of Commissioners remove or change the specified use by taking the same type of action (resolution) that was employed when the funds were initially committed.
- Assigned fund balance – This classification includes amounts that are constrained by the County's intent to be used for a specific purpose but are neither restricted nor committed. The Board of Commissioners delegated the responsibility to the Finance Director to approve or remove assigned fund balance that reflect the Commissioner's intended use of resources. The policy is for the Finance Director to contact the Controller's Office to review and to record the assigned fund balance.
- Unassigned fund balance – This classification represents amounts that have not been assigned to other funds and have not been restricted, committed, or assigned to specific purposes. The general fund is the only fund that reports a positive unassigned fund balance amount.

In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, followed by committed fund balance, assigned fund balance and lastly unassigned fund balance.

The County's adopted fund balance policy is a reserved, general fund balance equal to 10% of the total operating budgets net of total expenditures of any governmental fund in which sufficient cash reserve is maintained in the fund.

P. Net Position

The government-wide and fiduciary fund financial statements utilize a net position presentation. Net position is categorized as net investment in capital assets, restricted, and unrestricted.

- Net investment in capital assets – This category includes the County's capital assets (net of accumulated depreciation) reduced by the outstanding balances of bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- Restricted net position – This category presents external restrictions imposed by creditors, grantors, contributors or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.
- Unrestricted net position – This category represents net position of the County, not restricted for any project or other purpose.

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and fiduciary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2015

Q. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The government did not have an item that qualifies for reporting in this category.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government had two items that qualified for reporting in this category. Under the modified accrual basis of accounting, the governmental funds report unavailable revenue from property taxes as a deferred inflow of resources. Under the accrual basis of accounting, the government wide statement of net position reports deferred gain on refunding as a deferred inflow of resources.

R. Transfers

Transfers between funds are reported as other financing sources and (uses) within those funds.

S. Indirect Costs

Indirect costs are charged to various State and Federal grant programs based on a formal plan developed annually by the County.

T. Compensated Absences Payable

The County adopted GASB's Statement No. 16 "Accounting for Compensated Absences" as its standard of accounting and reporting for compensated absences by State and local governmental entities.

County employees are granted vacation and sick leave in varying amounts. In the event of termination, an employee is reimbursed for accumulated vacation days up to the equivalent of seventeen (17) days in addition to their current annual accrual. Employees are reimbursed 50% of their accumulated sick leave to a maximum of 20% of their annual salary upon separation from the County after a minimum of 8 years of service.

The County has accrued for compensated absences in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

U. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

V. Adoption of GASB Statements

The County adopted the requirements of GASB Statement No. 68, "Accounting and Financial Reporting for Pensions-an amendment of GASB Statement No. 27". The adoption of this statement had no effect on previously reported amounts.

The County adopted the requirements of GASB Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date". The adoption of this statement had no effect on previously reported amounts.

The County has not yet completed the various analysis required to estimate the financial statement impact of these new pronouncements.

2. **REPORTING ENTITY**

Consistent with GASB Statement No. 61 "The Financial Reporting Entity: Omnibus-an amendment of GASB Statements No. 14 and No. 34", the criteria used by the County to evaluate possible inclusion of related entities (authorities, commissions, and affiliates) within the financial reporting entity are financial accountability and the nature and significance of the relationship.

The component units discussed below are included in the County's reporting entity because of the significance of financial and operational relationships with the County. These component units have been included in the financial reporting entity as discretely presented component units.

COUNTY OF BUCKS, PENNSYLVANIA

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2015

A. Discretely Presented Component Units

The component units' columns on the government-wide financial statements include the financial data of the County's component units. They are reported in a separate column to emphasize that they are legally separate from the County. The governing bodies of all of these component units are appointed by the County Commissioners.

The Bucks County Airport Authority was established by the County under the provisions of the Municipality Authorities Act of 1945. It is responsible for acquiring, holding, constructing, improving, maintaining and operating airports and all necessary facilities within the County. The County guarantees certain debt of the Authority.

The Bucks County Community College was established under the Community College Act of 1963. It provides two-year collegiate experience for citizens within the local area who would benefit from higher education. The County's real estate tax levy includes millage for the purpose of providing annual appropriations to the Community College.

The Bucks County Community College Authority was incorporated under the provision of the Municipality Authorities Act of 1945. The Authority was created for the purpose of acquiring, holding, constructing, improving, maintaining and operating, owning or leasing buildings to be devoted for public uses and all facilities necessary for furthering public post-secondary education and training. The County provides financial support through lease rentals and is responsible for bonded debt.

The Bucks County Drug and Alcohol Commission was incorporated in 1987 to act as the single County authority to comply with the Pennsylvania State Plan for prevention, treatment and control of drug and alcohol abuse. The County Board of Commissioners approves all amendments to the Commission's by-laws and the appointment of the Executive Director. The County annually provides an appropriation to the Commission.

The Bucks County Free Library was established to promote library service in Bucks County. The County owns the library facilities and provides a significant annual appropriation to fund operating and capital expenses of the library. Upon dissolution of the library system, all assets will be distributed to the County.

The Bucks County Housing Authority was organized in 1941 by the County under the provisions of the Pennsylvania Housing Authorities Law of 1937. It is responsible for planning, developing, constructing and/or managing rental housing opportunities for low-income families. The County guarantees certain debt of the Authority.

Complete financial statements for the individual component units can be obtained from their respective administrative offices. The financial statements of the Bucks County Airport Authority, Bucks County Free Library and Bucks County Housing Authority are for the year ended December 31, 2015. The financial statements of the Bucks County Community College, Bucks County Community College Authority, and Bucks County Drug and Alcohol Commission are for the year ended June 30, 2015.

3. COMPONENT UNITS - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Significant accounting policies for the component units included in the accompanying financial statements are described below:

A. Bucks County Airport Authority

Basis of Accounting

The Airport Authority maintains its books on the accrual basis of accounting.

Capital Assets

Capital assets are stated at cost. The Authority includes infrastructure such as runways and improvements to land as part of their capital assets. Depreciation is being provided principally by the straight-line method over the estimated useful lives of the assets as follows:

Buildings and Improvements	20 to 30 years
Equipment	10 years

B. Bucks County Community College

Basis of Accounting

The financial statements of the Community College are prepared using the economic resources measurement focus and the accrual basis of accounting.

Cash and Cash Equivalents

Cash and cash equivalents include short-term investments with a maturity of three months or less.

Receivables

Accounts receivable for the Community College is recorded net of an allowance for uncollectible amounts of \$1,301,210 at June 30, 2015.

Capital Assets

Capital assets of the Community College are stated at cost when purchased or fair market value if received by donation. Depreciation and amortization are recorded on the straight-line basis over the estimated useful lives of the assets as follows:

Leasehold improvements	15 to 40 years
Library books and microfilm	7 to 25 years
Equipment	3 to 8 years

The period of amortization of capitalized leased equipment, and building improvements coincides with the lease terms.

Compensated Absences Payable

The Community College accrues a liability for future absences, recognizing the obligation relating to employees' rights to receive compensation for absences attributable to services already rendered.

COUNTY OF BUCKS, PENNSYLVANIA

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2015

C. Bucks County Community College Authority

Basis of Accounting

The Bucks County Community College Authority reports revenues and expenses on the accrual basis of accounting.

Future Revenue Receivables

Beginning with the year ended June 30, 1975, the Bucks County Community College Authority (the Authority) adopted the "financing method" of accounting for the lease of its facilities to the County of Bucks, whereby, future lease rentals to be received are shown as an asset applicable to the retirement of the bonds outstanding. In prior years, the cost of completed projects and projects under construction were shown as an asset and the cost in excess of bonds outstanding was included in the fund balances.

D. Bucks County Drug and Alcohol Commission

Basis of Accounting

The Bucks County Drug and Alcohol Commission reports revenues and expenditures on the modified accrual basis of accounting.

E. Bucks County Free Library

Basis of Accounting

The Bucks County Free Library reports revenue and expenses on the accrual basis of accounting.

Investments

Investments are stated at their fair values.

F. Bucks County Housing Authority

Basis of Accounting

The Bucks County Housing Authority uses the economic resources measurement focus and the accrual basis of accounting.

Cash and Cash Equivalents

Cash and cash equivalents include short term investments with a maturity of three months or less.

Capital Assets

Capital assets are recorded at cost. Donated assets are recorded at fair market value at the date of donation. Depreciation is provided using the straight-line method over the estimated useful lives as follows:

Buildings	40 years
Leasehold improvements	15 years
Furniture and Equipment	3-5 years

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2015

4. DEPOSITS AND INVESTMENT RISK

Under Section 1706 of the County Code of the Commonwealth of Pennsylvania, the County is authorized to invest funds in the following:

- United States Treasury Bills.
- Short-term obligations of the United States Government or its agencies or instrumentalities.
- Deposits in savings accounts or time deposits, other than certificates of deposit, or share accounts of institutions having their principal place of business in the Commonwealth of Pennsylvania and insured by the Federal Deposit Insurance Corporation (FDIC) or other like insurance.
- Obligations of the United States of America or any of its agencies or instrumentalities backed by the full faith and credit of the United States of America, the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the Commonwealth of Pennsylvania or of any political subdivision of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the political subdivision.
- Shares of an investment company registered under the Investment Company Act of 1940, whose shares are registered under the Securities Act of 1933.
- Certificates of deposit purchased from institutions having their principal place of business in or outside the Commonwealth of Pennsylvania that are insured by the FDIC or other like insurance. For any amounts in excess of the insured maximum, such deposits shall be collateralized by a pledge or assignment of assets pursuant to Act No. 72 of the General Assembly. Certificates of deposits may not exceed 20% of a bank's total capital surplus or 20% of a savings and loan's or savings bank's assets net of its liabilities.
- Commercial paper and prime commercial paper meeting certain requirements.
- Repurchase agreements that are fully collateralized by obligations of the United States of America.

In addition, the County Code provides that a pension or retirement fund may make any investment authorized by 20 Pa.C.S. Ch. 73 (relating to fiduciaries' investments).

For all deposits above the insured maximum, assets are pledged as collateral under subsection (c)(3), to be pooled in accordance with the Act of August 6, 1971 (P.L. 281, No. 72).

There were no deposits or investments during the year that were in violation with the State statutes or County policy.

A. Cash and Cash Equivalents, Restricted

Cash and cash equivalents whose use is limited to a specific purpose have been classified as "restricted" in the *Statement of Net Position* and the *Balance Sheet - Governmental Funds*. The restricted cash and cash equivalents are composed of amounts for debt service.

B. GASB Statement No. 40

GASB Statement No. 40 "Deposit and Investment Risk Disclosure" requires disclosures related to the following deposit and investment risks: credit risk, custodial credit risk, concentration of credit risk, interest rate risk and foreign currency risk.

COUNTY OF BUCKS, PENNSYLVANIA

**NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2015**

C. Deposits & Investment Risk

As of December 31, 2015, the County had the following debt investments and maturities in its operating fund account:

	<u>Fair Value</u>	<u>Maturity in Years</u>	
		<u>Less than 1 year</u>	<u>1-5 years</u>
US government treasuries	\$ 2,662,980	\$ 973,551	\$ 1,689,429
US government agencies	3,026,361	468,576	2,557,785
Corporate bonds	4,825,990	1,636,857	3,189,133
Certificate of Deposit	2,000,000	2,000,000	-
Total debt securities	<u>\$ 12,515,331</u>	<u>\$ 5,078,984</u>	<u>\$ 7,436,347</u>

D. Interest Rate Risk

As a means of limiting its exposure to fair value losses arising from increasing interest rates, the County's investment policy states that the County will attempt to match its investments with anticipated cash flow requirements. Unless matched to a specific cash flow, the County Treasurer's Office will not directly invest in securities maturing more than one year from the date of purchase.

E. Credit Risk

The risk that an issuer or other counterparty to an investment will not fulfill its obligations is called credit risk.

F. Custodial Credit Risk

For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside entity. Of the bank balance of \$116,320,276 at December 31, 2015, \$2,290,572 was insured by the FDIC. The balance of \$114,029,704 was collateralized in accordance with Act No. 72 of the General Assembly of Pennsylvania which requires the institution to pool collateral for all governmental deposits.

The entire cash and cash equivalent balance in the retirement fund was collateralized with securities held by the pledging financial institutions, or by their trust departments or agents but not in the County's name.

G. Concentration of Credit Risk

The County's investment policy allows no more than twenty-five percent of the County's investment portfolio with a single financial institution, except that said twenty-five percent restriction shall not apply during the first quarter of any calendar year and does not apply to U.S. Treasurer's securities and State investment pools.

The twenty-five percent restriction shall not apply to proceeds of County bond issues where it is more beneficial to the County to invest large amounts due to the then current I.R.S. regulations applicable to investment of bond proceeds.

COUNTY OF BUCKS, PENNSYLVANIA

H. Interest Rate Risk

The objective of the County's Investment Policy for the Retirement Fund is to provide for the funding and anticipated withdrawals on a continuing basis. To conserve and enhance the capital of the Fund in real terms through asset appreciation and income generation, while maintaining a moderate investment risk profile. To minimize principal fluctuations over the investment cycle (three to five years) and to achieve a long-term level of return commensurate with contemporary economic conditions and equal to or exceeding the investment objective set forth in the policy.

In order to maintain an effective money management structure that is style neutral, the large capitalization growth equity portion of the investment portfolio shall not exceed the large capitalization value equity portion of the portfolio by more than a two-to-one ratio. Conversely, value shall not exceed growth by the same ratio. This same relationship should be followed for the portfolio's small capitalization equity money managers as well.

I. Credit Risk

The County's Investment Policy for the Retirement Fund sets the overall rating of the fixed income assets to be at least "A", according to either Moody's or Standard & Poor's rating system. In cases where the yield spread adequately compensates for additional risk, BAA or BBB ratings can be purchased up to a maximum of 15% of total market value of fixed income securities. Cash and short term instruments maturing in 360 days or less shall be restricted to a maximum of 10% of total assets at all times. Cash equivalent reserves shall consist of cash instruments having a quality rating of A-2, P-2 or higher, as established by Moody's or Standards & Poor's. Bankers' acceptances, certificates of deposits and savings accounts must be made of United States banks or financial institutions, or foreign branches of United States banks, or United States branches of foreign banks, which are federally insured with unrestricted capital of at least \$50 million. Short-term corporate obligations must be rated A or better by Moody's or by Standard & Poor's.

COUNTY OF BUCKS, PENNSYLVANIA

**NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2015**

The diversification restrictions for individual stocks and fixed income securities purchased and held in the total portfolio shall not apply to similar investment instruments held in a commingled fund or a SEC registered mutual fund specifically approved by the Board.

J. Concentration of Credit Risk

The County's investment policy for the Retirement Fund allows investment in common stocks, preferred stocks and publicly traded Real Estate Investment Trusts which shall be restricted to high quality, readily marketable securities of corporations that are actively traded on a major exchange. Not more than 5% of the total stock portfolio valued at market may be invested in the common stock of any one corporation. Ownership of the shares of one company shall not exceed two percent of those outstanding. Not more than 25% of stock valued at market may be held in any one industry category. Fixed income securities of any one issuer shall not exceed 5% of the total bond portfolio at the time of purchase. This does not apply to U.S. Treasury Issues or other Federal agency securities.

As of December 31, 2015, the pension trust fund investments in debt securities have received the following ratings from Standard and Poor's:

DECEMBER 31, 2015**

6. REAL ESTATE TAXES RECEIVABLE

Real estate taxes for the calendar year are levied and the related tax receivable is recorded on March 1 of each year. Any unpaid taxes are attached as an enforceable lien on such property as of January 15 of the following year. County taxes are payable as follows: 2% discount, March 1 through April 30; face amount May 1 through June 30; and 10% penalty thereafter. The County collects delinquent taxes on behalf of itself and other taxing authorities. These collections and remittances are accounted for through the Tax Claim Bureau. Real estate taxes levied for 2015 are recorded as receivables, net of allowance for uncollectibles of \$1,880,037.

7. INTERGOVERNMENTAL RECEIVABLES

10. EMPLOYEES' RETIREMENT SYSTEMS

A. Bucks County Employees' Retirement System

Plan Description

The County is the administrator of a single-employer, Employees' Retirement System established January 1, 1942 and governed by the County Pension Law, Act 96 of 1971, of the General Assembly of the Commonwealth of Pennsylvania, as amended (The Act). The plan is administered by the County Retirement Board. Benefits and contribution provisions of the plan are established and can be amended as provided by the act. The system provides benefits for all full-time County employees except for certain Health Department employees. Effective July 1, 1991, all per diem employees working 1,000 hours per year must participate in the plan. The plan is included in the basic financial statements of the County as a pension trust fund. A stand-alone financial report is not issued for the plan. The financial statements of the Pension Trust Fund are prepared on the accrual basis of accounting. Plan member and employer contributions to the plan are recognized in the period in which contributions are due. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Current membership in the system is composed of the following:

<u>Membership</u>	<u>December 31, 2015</u>
Inactive plan members or beneficiaries currently receiving benefits	1,280
Inactive plan members entitled to but not yet receiving benefits	311
Active plan members:	
Fully vested	1,828
Nonvested	559

All full-time County employees and per diem employees working at least 1,000 hours per year, are required to participate in the system. Benefits vest after five years of service. Employees who have reached the normal retirement age of 60 or age 55 with 20 years of County service are entitled to annual retirement benefits equal to the member's annuity based on the actuarial equivalent of the accumulated deductions and a County annuity equal to the product of: (a) the "final average salary" (average of 3 highest years) times (b) the "class basis" (1/80 or 1/60 depending on the date when the member entered the system), multiplied by (c) the service time at each class basis. The system permits early retirement on a voluntary basis before age 55 with 20 years of service. The cost of living adjustments are provided at the discretion of the Retirement Board.

If an active employee dies at age 60 or older or after completing 10 years of credited service, a death benefit will be paid to the employee's designated beneficiary(ies). Active employees, who become totally disabled after 5 years of County service, receive an annual pension equal to 25% of the "final average salary." A plan member who leaves County service with less than 5 years of service may withdraw his/her contributions plus any accumulated interest.

COUNTY OF BUCKS, PENNSYLVANIA

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2015

Rate of Return

As of December 31, 2015, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was (0.37)%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected return, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation for the 2015 measurement period (see the discussion of the pension plan's investment policy) are summarized in the following table:

<u>Asset Class</u>	<u>Long-Term Expected Real Rate of Return</u>	<u>Target Allocation</u>
Domestic equity	5.4 - 6.4%	40 - 50%
International equity	5.5 - 6.5%	15 - 25%
Fixed income	1.3 - 3.3%	25 - 35%
Real Estate/Alternative	4.5 - 5.5%	0 - 10%
Cash	0 - 1.0%	0 - 10%

Discount rate. The discount rate used to measure the total pension liability was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that County contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. (i.e. no depletion date is projected to occur).

Sensitivity of the net pension liability to changes in the discount rate. The following presents the net pension liability of the County, calculated using the discount rate of 7.5 percent, as well as what the County's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.5 percent) or 1-percentage-point higher (8.5 percent) than the current rate:

	1% Decrease (6.5%)	Current Discount Rate (7.5%)	1% Increase 8.5%
County's net pension liability \$	119,140,510	\$ 73,457,645	\$ 6,227,229

As a condition of participation, employees are required to contribute a portion of their salary to the system as stipulated through the Pennsylvania State Law Act 96 of August 31, 1971 (P.L. 398). Plan members are required to contribute 9% of their annual covered salary and may contribute up to 19%. Interest is credited each year in an amount not less than 4% and no greater than 5.5% as mandated by Pennsylvania State Law and voted upon by the County Retirement Board. Administrative costs are financed through investment earnings. The Act makes no provision for termination of the Plan.

COUNTY OF BUCKS, PENNSYLVANIA

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2015

Investments

The system's investments are held in a bank-administered trust fund. The Pension Trust Fund investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments, and are discounted at prevailing interest rates for similar instruments. Investments that do not have an established market are reported at estimated fair value. The following table presents the cost and market value of these investments at December 31, 2015:

	<u>Cost</u>	<u>Fair Value</u>
Bonds, debentures, bills, and notes

Total	<u>\$ 576,396,827</u>	<u>\$ 656,352,502</u>

Actuarial Valuation

The annual required contribution was determined based on the most recent annual actuarial valuation dated as of January 1, 2016. The county elected to change from the aggregate actuarial cost method of funding for the valuation to the entry age normal funding method beginning in 2011. Significant actuarial assumptions used include, (a) a rate of return on the investment of present and future assets of 7.5% per year compounded annually, (b) projected salary increases of 3.5% per year, attributable to inflation, and (c) no post-retirement benefit increases. Both (a) and (b) included an inflation component of 3%. The actuarial value of assets were determined using the greater of the market value of assets as of the valuation date and adjusting the actuarial value of assets of the prior valuation date in accordance with the method approved by the Commonwealth of PA under Act 44 Section 210A(1). The actuarial value of assets will be limited to a maximum of 120% and a minimum of 80% of the market value of assets as of the valuation date.

For 2015, mortality rates were based on the RP-2013 Annuitant and Non-Annuitant Mortality Tables for males and females with no projected improvement. Prior to 2015, the plan had used the GAM83 mortality table. This change in assumption has resulted in a deferred outflows of resources in 2015.

Under the Act, cost-of-living adjustments to each member's retirement allowance shall be reviewed at least once every three years subsequent to the member's retirement date. The adjustment, should the County elect to give one, is a percentage of the change in the Consumer Price Index (CPI). The Plan did not include an assumption for projected ad hoc postemployment benefit changes as they are not considered to be substantively automatic.

The actuarial assumptions used in the valuation for the 2015 measurement period were based on past experience under the plan and reasonable future expectations which represent our best estimate of anticipated experience under the plan. An experience study has not been performed in the last 5 years.

COUNTY OF BUCKS, PENNSYLVANIA

**NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2015**

For the 2015 measurement period, the County recognized pension expense (income) of \$7,513,517 and reported deferred outflows of resources and deferred inflows of resources that relate to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$ 15,383,543	\$ -
Change of assumptions	8,246,971	-
Net difference between projected and actual earnings on pension plan investments	<u>43,609,264</u>	<u>-</u>
Total	<u>\$ 67,239,778</u>	<u>\$ -</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended	
2016	\$ 14,095,629
2017	14,095,629
2018	14,095,629
2019	14,095,629
2020	3,193,313
Thereafter	7,663,949

As of January 1, 2016, the most recent actuarial valuation date, the plan was 94.5% funded. The actuarial value of the assets were \$694,710,233 and the actuarial accrued liability for benefits was \$734,896,470, resulting in an unfunded accrued actuarial liability (UAAL) of \$40,186,237. The covered payroll was \$153,253,605 and the ratio of the UAAL to the covered payroll was 26.2%. The actuarial value of assets as a percentage of the actuarial accrued liability was 94.5%.

Contributions Required and Contributions Made

The Retirement Board establishes contribution rates based on an actuarially determined contribution recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability.

The actuarially required contribution (ARC) to the retirement fund for 2015 was \$7,865,947. The County contributed cash of \$7,865,947 on December 30, 2015. The contributions represented 5.14 percent of covered payroll. All contributions were for normal cost. Employee contributions in 2015 totaled \$14,702,226. These contributions represented 9.60 percent of covered payroll.

COUNTY OF BUCKS, PENNSYLVANIA

**NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2015**

B. Health Department

Retirement benefits are provided to County Health Department employees by the State Employees' Retirement System (SERS), a cost sharing multiple-employer public employee retirement system. (See Note 11A.) The payroll for employees covered by the SERS for the year ended December 30, 2015 was \$295,088; the County's total payroll was \$153,158,234.

The total contribution for the year ended December 31, 2015 was \$84,222, which consisted of \$65,744 from the County and \$18,478 from employees. These contributions represented 22.28 percent and 6.26 percent of covered payroll, respectively. The County's contributions for the years ending December 31, 2015, 2014, and 2013 were \$65,744, \$65,470, and \$47,724, respectively, equal to the required contributions for each year.

A. SERS

The SERS is a cost sharing, multiple-employer public employee retirement system. Membership in the SERS is mandatory for most State employees, members, and employees of the legislature and certain elected persons in the executive branch. Certain other employees are not required, but are given the option to participate. The SERS provides retirement, death, and disability benefits. Retirement benefits vest after 10 years of credited service. Employees, who retire at age 60 or with 35 years of service if under age 60, are entitled to a normal annual retirement benefit. The general annual benefit is 2% of the member's high three-year average salary multiplied by their years of service. Covered employees are required by Commonwealth of Pennsylvania State statute to contribute 5% to 10% of their salary to the SERS. The Community College's contributions for the years ending June 30, 2015, 2014, and 2013 were \$417,494, \$397,000, and \$275,000, respectively, equal to the required contributions for each year. Historical trend information including the SERS's "Schedule of Funding Progress" and the "Schedule of Employer Contributions" is presented in the SERS's December 31, 2015 annual financial report.

B. TIAA

Teachers Insurance and Annuity Association (TIAA) is a defined contribution plan. In a defined contribution plan, benefits depend solely on amounts contributed to the TIAA plus investment earnings.

All Bucks County Community College employees are eligible to participate from the date of employment. Members receive first day vesting rights and may assign contributions to the variety of investment programs. Members leaving the college within 5 years of their employment date may withdraw their contributions and accumulated interest.

Prior to the current AUL plan, all full time Bucks County Free Library employees were eligible to participate after one year of employment with mandatory participation upon completion of second year and attainment of age 30. Members may assign contributions to a variety of investment programs.

COUNTY OF BUCKS, PENNSYLVANIA

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2015

C. PSERS

The Public School Employees' Retirement System (PSERS) is a multiple-employer cost sharing public employee retirement system. Membership in the PSERS is mandatory for substantially all full-time public school employees in the Commonwealth. Members are eligible for monthly retirement benefits upon reaching (a) age 62; (b) age 60 and 30 or more years of service or; (c) 35 or more years of service regardless of age. Benefits are generally equal to 2% of the member's final average salary multiplied by the number of years of credited service. After completion of 10 years of service, a member's right to the defined benefit is vested and early retirement benefits may be elected.

The PSERS also provides for disability retirement benefits and death benefits. Participants are eligible for disability retirement benefits after completion of 5 years of eligible service. Such benefits are equal to 2% of the member's final average salary multiplied by the number of years of credited service, but not less than one third of such salary, nor greater than the benefit the member would have had at superannuation retirement age.

Covered employees are required by the Commonwealth of Pennsylvania statute to contribute 6.5% to 7.5% of their salary to the PSERS. The Community College is required by the same statute to contribute the remaining amounts necessary to pay benefits when due. The College's contributions for the years ending June 30, 2015, 2014, and 2013 were \$555,370, \$481,000, and \$385,000, respectively, equal to the required contributions for each year. Historical trend information including the PSERS's "Schedule of Funding Progress" and the "Schedule of Employer Contributions" is presented in the PSERS's June 30, 2015 annual financial report.

D. American United Life Insurance Company (AUL)

AUL is a defined contribution plan. The benefits depend solely on amounts contributed to the AUL plus investment earnings. Effective May 2006, all new full time employees can elect to participate in the AUL plan. Employees with TIAA prior to May 2006 are permitted to remain with TIAA.

The County and its component units do not provide any additional post-employment benefits other than pension benefits.

12. SELF-INSURANCE PROGRAM

The County elected to self-insure potential obligations applicable to workers' compensation, general liability, and auto liability. This program is contractually administered by private agencies. In 2015, the County accounted for claims expenditures reported and all transactions associated with self-insurance in the general fund. The County has purchased reinsurance coverage for excess obligations over the limits listed below for workers' compensation, general liability and auto liability. There has been no significant reduction in insurance coverage from the prior year and the amount of settlements has not exceeded insurance coverage for each of the past three years. The County's liability limits per incident are as follows:

	<u>1985-1992</u>	<u>1992-1997</u>	<u>1998-2002</u>	<u>2003</u>	<u>2004-2008</u>	<u>2009-2015</u>

Auto liability	\$150,000-\$500,000	\$250,000	\$250,000	\$250,000	\$250,000	\$250,000

COUNTY OF BUCKS, PENNSYLVANIA

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2015

In addition to administrative and premium costs, funds were made available by the County to process the payment of claim benefits by the program administrator. Costs of the self-insurance program charged to current year expenses were \$3,580,543, which includes an estimate for claims incurred but not reported. The county reported loss claims and claims incurred but not reported for workers' compensation, general liability and auto liability based on independent actuarial evaluations. Liabilities for incurred losses to be settled by fixed or reasonably determinable payments over a long period of time are reported at their present value using a four percent expected future investment yield assumption. The estimate of claims liability also includes amounts for nonincremental claims adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims.

The following summary reflects the changes in the insurance claims liability recorded in the governmental activities for the years ending December 31, 2014 and December 31, 2015:

	Year Ended December 31, 2014	Year Ended December 31, 2015
Beginning year liability	\$ 8,474,955	\$ 9,151,609
Claims and changes in estimates	4,890,416	3,580,543
Claims payments	(4,213,762)	(3,787,444)
Ending year liability	\$ 9,151,609	\$ 8,944,708

13. LONG-TERM OBLIGATIONS

On November 4, 2015, the County issued General Obligation Notes, Series of 2015 in the amount of \$11,000,000. The notes have variable interest rates (maximum 15%) and mature in 2022. The proceeds of the notes will be used to finance the replacement of the County's 911 computer aided design system and the 911 Phone Switch, the purchase of emergency generators and the payment of issuance costs. Interest is payable monthly on the 25th.

In July 2015, the County issued nonelectoral and electoral debt of \$38,085,000 federally taxable General Obligation Bonds, Series of 2015. The bonds have interest rates of 1.00% to 5.00% and mature in 2022. The proceeds were used to advance refund \$15,785,000 of the County's General Obligation Bonds, Series of 2005 and \$24,045,000 of the County's General Obligation Bonds, Series of 2007. The County recorded issuance of refunding bonds in the amount of \$38,085,000. The advance refunding was undertaken to reduce total debt service payments over the next years by \$2,267,681 and resulted in an economic gain of \$2,130,621.

The County paid bond issuance costs of \$287,482 and a deferred gain was recognized with the issuance of the refunding bonds in the amount of \$3,924,424. Interest is due semi-annually on June 15th and December 15th.

The Tax Reform Act of 1986 instituted certain arbitrage restrictions with respect to the issuance of tax-exempt bonds after August 31, 1986. Arbitrage regulations deal with the investment of all tax-exempt bond proceeds at an interest yield greater than the interest yield paid to bondholders. Generally, all interest paid to bondholders can be retroactively rendered taxable if applicable rebates are not reported and paid to the Internal Revenue Service (IRS) at least every five years. During the current year, the County performed calculations of excess investment earnings on various bonds and financings and at December 31, 2015 does not expect to incur a liability.

B. Lease Rentals Payable

The County historically leased the Community College facilities from the Bucks County Community College Authority (the Authority) and subleases the property to the Bucks County Community College (the College).

In 2007, the Authority issued a Revenue Note, Series of 2007 in the amount of \$9,950,000 for the completion of the Lower Bucks campus. The County approved a guaranty of the debt and, if necessary, would make payments or assist the Authority in meeting its debt obligations. During 2015, no payments were required by the County. The Authority's debt related to this note at June 30, 2015 totaled \$6,765,024.

In June 2007, the Authority entered into a new lease and sublease with the college and the County as a result of the 2007 Debt Issuance. The Authority leases to the County the property which the Authority acquired. The County subleases the leased premises to the College. The County agreed to pay the Authority out of the taxes and other general revenues for a rental of the leased premises. Any payment made by the College should be credited against the County's obligation to pay rentals.

In June 2007, the Authority issued College Building Revenue Bonds, Series of 2007 totaling \$15,195,000. The bonds were issued to advance refund the Authority's 1997 College Building Revenue Bonds and the 1999 Revenue Note. The Authority also issued Revenue Note, Series of 2007 in the amount of \$9,950,000 for the completion of the Lower Bucks College campus. On July 9, 2007 the Authority used \$15,527,064 of the proceeds to pay in full the 1997 debt.

In June 2008, The Authority issued \$20,285,000 of College Building Revenue Bonds to fund various capital projects including construction of academic buildings at the College's Upper Bucks Campus (the "Upper Campus Project"), ADA Code compliance renovations (the "ADA Project"), and construction of the Lower Bucks fire training center (the "Training Center Project"). In conjunction with the issuance of these bonds, the Authority, County, and the College entered into the first supplemental lease and sublease agreement, whereas the County will lease the project assets from the Authority and will sublease the project assets to the College related to the Upper Campus and ADA Projects. Project assets of the Upper Campus Project and the ADA Project are property of the Authority during the lease term. Project assets of the Training Center Project are property of the College during the lease term. The lease commits the College to pay the Authority annual rentals through 2028 for the use of all project assets. Lease payments are paid directly to the holder of the bonds. Lease payments to be made by the College will be sufficient to satisfy the debt service requirements of the bond. Fixed rent payments escalate and decline over the lease term to fund the Authority's debt as it matures.

COUNTY OF BUCKS, PENNSYLVANIA

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2015

In November 2008, in conjunction with the June 2008 first supplemental lease and sublease agreement, the College entered into a sublease agreement with the County. The agreement states that the facilities constructed related to the Training Center Project shall remain the property of the College, and at the expiration of the agreement in 2028 or any renewal, the assets shall become the property of the County.

In December 2014, the Authority issued College Building Revenue Bonds, Series of 2014 totaling \$25,585,000. The proceeds will be used to fund the outfitting and renovations to Founders Hall Science Building at the College's main campus. In conjunction with the issuance of these bonds, the Authority, College and the County entered into the second supplemental lease and sublease agreement. The County will lease the project assets from the Authority and will sublease the project assets related to the Founders Hall projects to the College. Lease payments made by the College will be sufficient to satisfy the debt service.

Title to the assets related to the Upper Campus Project and the ADA Project passes to the College upon maturity of the bonds. Accordingly, the College recorded this amount as obligations under capital leases. The College treats the lease payments as a reduction of the capital lease obligations.

C. Guaranty Agreements

The County has entered into Surety Agreements in 1997, 2001, 2002, 2003, 2004, 2005 and 2015 between the County and the Bucks County Airport Authority (Airport). The County agreed to guarantee the debt of the Airport and, if necessary, would make payments or assist the Airport in meeting its debt obligations. The bonds mature annually in the years 2016 through 2027 with monthly interest payments. During 2015, no such payments were required to be made by the County. At December 31, 2015 the outstanding principal amount of guaranteed debt is \$2,403,702. (See Note 15A.) At December 31, 2015 the County has not recorded a liability for this guaranty. The Airport Authority would be required to repay the County for any amounts the County paid in relation to this guarantee.

D. County Debt Margin

The County's legal debt margin at December 31, 2015, computed in accordance with the Commonwealth of Pennsylvania's Local Government Unit Debt Act of 1972, as amended, is \$1,093,288,467 for general obligation bonds and \$1,500,519,343 for general obligation bonds and lease rental debt. The County is in compliance with all applicable debt covenants at December 31, 2015.

14. **ADVANCE REFUNDING**

In 1992, 1998, 2005, 2008, 2013 and 2015 the County issued general obligation bonds to advance refund prior years general obligation bonds. The entire proceeds (net of issuance costs and surplus cash) were used to purchase United States Government Securities, which were deposited in irrevocable trusts with escrow agents to provide for all future debt service. As a result, the prior bonds are considered to be defeased and the liability for the refunded bonds has been removed from the long-term obligations. The balance outstanding at December 31, 2015, which are considered defeased:

<u>Bonds</u>	<u>Amounts</u>
1990 First Series Bonds	\$ 10,460,000
1995 Series Bonds	3,295,000
1997 Series Bonds	5,820,000
1998 Series Bonds	3,845,000
1999 Series Bonds	360,000
2004 Series Bonds	49,330,000
2005 Series Bonds	15,785,000
2007 Series Bonds	24,045,000

B. Bucks County Community College Authority

In June 2007, the Bucks County Community College Authority (the Authority) issued College Building Revenue Bonds, Series of 2007 totaling \$15,195,000. The bonds were issued to advance refund the Authority's 1997 College Building Revenue Bonds and the 1999 Revenue Note. The Authority also issued Revenue Note, Series of 2007 in the amount of \$9,950,000 for the completion of the Lower Bucks College campus. The outstanding balances of the 1997 bonds and the note were \$13,695,000 and \$1,832,064, respectively, at June 30, 2007. On July 9, 2007 the Authority used \$15,527,064 of the proceeds to pay in full the 1997 debt.

The Authority revenues used for the repayment of debt are derived from the Commonwealth of Pennsylvania and the County (see Note 13B). The Authority revenue bonds and notes principal payable at June 30, 2015 are as follows:

<u>Series</u>	<u>Interest Rates</u>	<u>Final Maturity</u>	<u>Principal</u>
2007 Bond	4.00 - 5.00%	2017	\$ 2,270,000
2007 Note	3.99%	2027	\$ 6,765,024

Total	<u>\$ 49,090,024</u>	<u>\$ 18,333,005</u>	<u>\$ 67,423,029</u>

C. Bucks County Housing Authority

Long-term obligations of the Bucks County Housing Authority (the Housing Authority) totaling \$2,070,678 at December 31, 2015, consisted of Rural Housing Community Development Service (RD) mortgages totaling \$1,770,678 and a Housing Trust Fund loan totaling \$300,000.

HUD Guaranteed Bonds and Notes

During a prior audit period, the Authority's long-term debt (guaranteed by HUD) was written off in accordance with HUD's GAAP Conversion Guide.

GASB Interpretation No. 2, Disclosure of Conduit Debt Obligations, provides guidance as to the proper GAAP treatment of this HUD-guaranteed debt. The debt transactions between the Authority and HUD are similar to conduit debt obligations, which are "certain limited-obligation revenue bonds, certificates of participation, or similar debt instruments issued by a state or local governmental entity for the express purpose of providing capital financing for a specific third party that is not a part of the issuer's financial reporting entity."

COUNTY OF BUCKS, PENNSYLVANIA

**NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2015**

The transaction between the Authority and HUD is similar to HUD giving funds to the Authority to operate and the funds are a capital contribution. HUD has essentially made an investment in the Authority. Therefore, the liability was reclassified as a capital contribution.

RD Mortgages

The RD has provided a mortgage for property managed by the Housing Authority as follows:

<u>Property</u>	<u>Date Provided</u>	<u>Original Balance</u>	<u>Interest Rate</u>	<u>Monthly Payment</u>	<u>Balance December 31, 2015</u>
Sellersville Heights	10/85	\$ 2,200,000	10.75%	\$ 4,661	\$ 1,770,678

The RD provides an interest subsidy for each of these mortgages.

Housing Trust Fund Loan

The Housing Authority received \$300,000 in Housing Trust Fund monies from the County. The funds are a deferred loan with zero interest and will be payable in 30 years, which is the end of the period of affordability in conjunction with the PA Low Income Housing Tax Credit Program.

COUNTY OF BUCKS, PENNSYLVANIA

16. INTERFUND RECEIVABLES AND PAYABLES

The general fund has paid expenses on behalf of other funds, therefore a corresponding interfund receivable and payable have been recorded. In addition, the County utilizes a pooled operating cash account to enhance investment return, therefore interfund receivables and payables are recorded to recognize amounts held in the general fund pooled cash account on behalf of other funds. Interfund receivable and payable balances of individual funds within the primary government as of December 31, 2015 are as follows:

	<u>Due From Other Funds</u>	<u>Due To Other Funds</u>

18. FUND BALANCE/NET POSITION

The constraints on fund balance included in the governmental fund financial statements represent portions of fund balances that are restricted or assigned for various purposes and are not available for the payment of other subsequent expenditures. The general fund balance of \$52,646,746 was unassigned.

The 2013 Series Bond fund has a nonspendable fund balance of \$11,680,852. The funds are related to loans receivable from municipal public safety constituents.

The negative unassigned fund balance of (\$2,686,576) in the debt service fund is debt payments in excess of real estate taxes and other income. The 2013 Series Bond fund has restricted fund balance of \$6,330,966 for the payment of capital project expenditures.

In the nonmajor capital project funds, a total of \$18,068,186 of fund balance was restricted for the payment of capital project expenditures.

The restriction on net position included in the fiduciary funds represents \$649,714,607 of net position held in trust for pension benefits for future payments to members.

COUNTY OF BUCKS, PENNSYLVANIA

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2015

Net Position

The restrictions on fund balance/net position included in the fund financial statements and the government-wide statements represent portions of net position that are restricted for various purposes and are not available for the payment of other subsequent expenditures. The following restricted net positions are included in the fund financial statements and the government-wide financial statements.

Governmental Activities

All applicable restricted governmental fund balance amounts disclosed above are also recorded as restricted net position in the Governmental Activities Statement of Net Position.

Fiduciary Funds

Pension Trust Fund

Net position restricted for pension benefits \$649,714,607
This represents amounts that are held in trust for future payments of members' benefits.

19. RELATED PARTY TRANSACTIONS

The County is affiliated with the Southeastern Pennsylvania Transportation Authority (SEPTA) as a result of the following factors:

- SEPTA provides transportation services to County residents.
- The County has representation on SEPTA's Governing Board.
- The County partially subsidizes SEPTA's operations.

Because of the pervasive nature of SEPTA's operations (SEPTA services all of Southeastern Pennsylvania including several governmental entities significantly larger than Bucks County), it was not considered part of the County's reporting entity. However, the County does consider SEPTA a related party based on the factors enumerated above.

During 2015, the County provided operating and capital subsidies to SEPTA aggregating \$3,101,000 and \$297,661, respectively. Such subsidies are classified as Authorities in the general fund operating statement. As of December 31, 2015, the County's commitment to fund future SEPTA capital projects is \$387,000.

The County is affiliated with Independence Blue Cross (IBC). As a result of the contractual relationship with IBC for health care coverage, the County appoints one representative on IBC's governing board. During 2015, the County expended \$12,059,992 for employee health care coverage to IBC and \$16,898,735 to Keystone Health Plan East.

20. COMMITMENTS AND CONTINGENCIES

The County currently occupies, and is under agreement to lease separate buildings for County use. The following is a schedule of future minimum lease payments to be made under these operating leases as of December 31, 2015. Rental expense for all operating leases amounted to \$1,061,727 in 2015.

<u>Years</u>	<u>Amounts</u>
2016	\$ 849,668
2017	465,528
2018	89,509
Total	<u>\$ 1,404,705</u>

COUNTY OF BUCKS, PENNSYLVANIA

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2015

21. COMPONENT UNITS - COMMITMENTS AND CONTINGENCIES

Leases

The Bucks County Community College (the College) entered into a lease agreement during fiscal year 2007 with the Bucks County Community College Authority (the Authority) as a result of the Authority's refinancing of the College Building Revenue and Refunding Bonds, Series 1997 and the 1999 Note. The lease commits the College to pay the Authority on behalf of the County annual rentals through 2017 for use of the campus land and buildings. Lease payments are structured in amounts sufficient to provide for the debt service requirements on the bonds. Fixed rent payments escalate and decline over the lease term to fund the Authority's debt as it matures.

In conjunction with the 2007 lease and sublease agreement, the College satisfied its obligations under the 1997 and 1999 lease and sublease agreements by irrevocably depositing sufficient funds to pay in full and retire the Authority's obligations under the 1997 Revenue Bonds and the 1999 Revenue Note.

The minimum future rentals under the lease agreement including interest of \$305,000 are as follows:

<u>Years</u>	<u>Amounts</u>
2016	\$ 1,212,400
2017	<u>1,218,000</u>
Total	<u>\$ 2,430,400</u>

22. LITIGATION

In the normal course of business there are various claims and suits pending against the County. In the opinion of counsel, the amount of such losses that might result from these claims and suits, if any, would not materially affect the financial condition of the County with the exception of the claim noted below.

From February 26, 2013 through April 10, 2014, a Plaintiff filed a complaint and two amended complaints against several defendants and the County of Bucks. The claims against the County alleged that the County's Inmate Lookup tool wrongfully disseminated his criminal history record information in violation of Pennsylvania Criminal History Records Information Act ("CHRIA"), 18 Pa.C.S.A. §§ 9101 *et seq.* Plaintiff seeks damages and injunctive relief against the County. Plaintiff also brought this action as a class action on behalf of all persons whose criminal history record information was made available on the BCCF Inmate Lookup Tool. After the parties filed cross motions for summary judgement, the court agreed with the County on March 28, 2016 that the Plaintiff had not suffered any "actual injury" and thus could not recover actual and real damages for himself or members of the putative class.

On May 4, 2016, the court granted Plaintiff's motion for class certification under Fed.R.Civ.P.23(b)(3), certifying a class comprised of "all persons whose criminal history record information was made available on the BCCF Inmate Lookup Tool." This class consists of 66,799 persons with potential punitive damages exposure between \$1,000 - \$10,000 per violation. The County believes it has a strong basis for appeal. Thus on May 17, 2016, the County filed a petition for permission to appeal the class certification order, pursuant to Fed. R. Civ. P. 23(f), with the United States Court of Appeals for the Third Circuit. There are no assurances that the Third Circuit will accept the Rule 23(f) appeal. The County does not have any insurance covering this claim. The County will continue to defend this case vigorously at both the district court and appellate court.

23. DEBT SERVICE FUND/FUND BALANCE

The Debt Service Fund reported a negative unassigned fund balance at year end. The debt service expenditures incurred exceeded the amounts set aside for these payments. In 2016, the County plans to increase the fund balance by increasing the debt service fund transfers from the General Fund.

COUNTY OF BUCKS, PENNSYLVANIA

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2015

24. RESTATEMENT OF NET POSITION/CHANGE IN ACCOUNTING PRINCIPLE

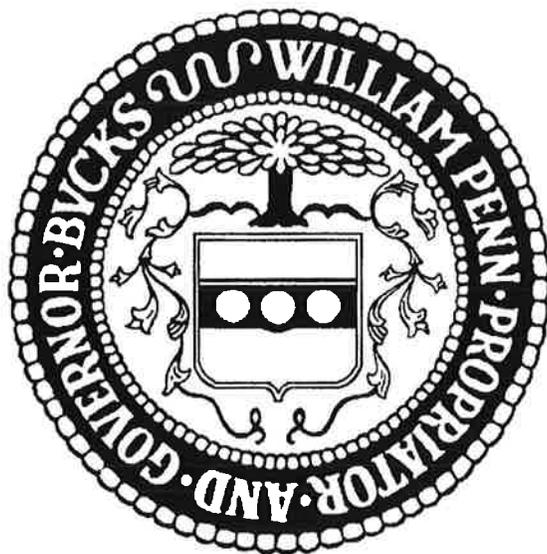

In 2015, the County implemented GASB No. 68, "Accounting and Financial Reporting on Pensions – an amendment of GASB Statement No. 27". The net position – January 1, in the Statement of Activities of the government-wide financial statements has been restated by \$50,635,545 from \$260,800,061 to \$210,164,516 to add accumulated pension liability of \$6,570,297 and write off the net pension asset of \$44,065,248.

25. COMPONENT UNIT - RESTATEMENT OF NET POSITION/CHANGE IN ACCOUNTING PRINCIPLE

The Bucks County Community College adopted GASB Statement No. 68 for its fiscal year ended June 30, 2015. In accordance with GASB No. 68, the college changed the accounting and financial reporting standards for the activities of the pension plans administered through trusts and meeting certain criteria. This change in the amount of \$16,837,094 is reflected as a restatement of the beginning net position of the Bucks County Community College in the Combining Statement of Activities – Component Units.

26. SUBSEQUENT EVENTS

On February 3, 2016, the Commissioners approved Ordinance #150 authorizing the incurrence of electoral and nonelectoral debt with the issuance of General Obligation Bonds, Series of 2016 in the amount of \$55,255,000. The proceeds of the bonds will be used to finance the advance refunding of a portion of the County's outstanding General Obligation Bonds, Series of 2008 and funding the costs of certain capital projects including open space, the renovation and improvement of the County administration building and rotunda and the renovation of the County's former family court building.

COUNTY OF BUCKS, PENNSYLVANIA

NONMAJOR GOVERNMENTAL FUNDS

DESCRIPTION OF FUNDS

SPECIAL REVENUE FUNDS

The special revenue funds accounts for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes as follows:

The area agency on aging fund accounts for state and federal revenues used to operate programs for the residents of Bucks County age 60 and older. The excess of expenditures over revenues is financed by the general fund.

The bridge reconstruction fund accounts for construction and improvements to County bridges.

The community and business development fund accounts for revenues received under this federal program.

The emergency response 911 fund accounts for all revenue and expenditures related to the County's emergency response 911 communications department.

The hazardous material emergency response fund accounts for revenues received under the Pennsylvania Hazardous Material Emergency Planning and Response Act (Act 165).

The home investment in affordable housing (HOME) fund accounts for revenues received under this federal program.

The liquid fuels tax fund accounts for state revenues required to be used primarily for building and improving local roads and bridges.

The Neshaminy Manor fund accounts for revenues received for the provision of services at the County's long-term care nursing facility.

CAPITAL PROJECTS FUNDS

The capital projects funds account for the financial resources intended to be used for the acquisition, construction or reconstruction of County facilities. Resources of the capital projects funds are derived principally from proceeds of bond issues.

The 2005 series bond fund is used to account for the expenditure of capital project monies financed by the note proceeds of the Bucks County general obligation notes, series of 2005.

The 2008 series bond fund is used to account for the expenditure of capital project monies financed by the note proceeds of the Bucks County general obligation notes, series of 2008.

The 2011 series bond fund is used to account for the construction of a new justice center, the County's Open Space program and the acquisition of certain technology upgrades.

The 2015 notes capital acquisitions fund is used to account for the replacement of equipment related to the County's 911 system.

The open space project fund accounts for bond proceeds and expenditures for the first phase of the County's open space program. It also accounts for grants received and expenditures related to the purchase of flood victims' properties. The fund also accounts for expenditures of the County's "environmental protection" funds.

The miscellaneous capital projects fund accounts for various capital improvement programs for County owned property, plant, and equipment.
