Message from the Bucks County Commissioners

The Commissioners of Bucks County have deemed the award of contracts to county businesses and residents an important step toward fostering local economic development. We applaud the men and women who have established their businesses in Bucks County and, especially, the business owners who have passed the rigorous certification process through the Pennsylvania Department of General Services, the Pennsylvania Unified Certification Program, and/or the U.S. Small Business Administration.

This directory is intended for the use of county organizations, municipalities, non-profits, and businesses, local and nationwide; to help identify certified companies as may be required by government contracts or supplier diversity programs. The directory is a product of The County of Bucks Business Development Program. The program provides business start-up assistance, and helps companies sustain, expand, or enter the Bucks County market.

The Program Administrator provides workshop education, networking opportunities, and resources to businesses in the following areas:

- Start up and licensing requirements
- Site selection
- Financing
- Employee recruitment
- Workforce development and training programs
- International sales and exporting
- Government procurement opportunities
- Certification as women, minority, or veteran-owned business

Introduction

This directory identifies companies in Bucks County that are State-Certified through the Department of General Services and/or the Pennsylvania Unified Certification Program, and Federally-certified by the U.S. Small Business Administration.

Businesses certified by the Commonwealth of Pennsylvania were obtained by the Department of General Services Bureau of Minority and Women Business Opportunities and the Pennsylvania Unified Certification Program (PA UCP). The PA UCP certifies firms eligible to participate on any Federal Aviation Administration (FAA), Federal Highway Administration (FHWA), and the Federal Transit Administration (FTA) funded contracts. Businesses certified by the SBA's 8(a) Business Development Program were retrieved from the CCR (Central Contractor Registration) database.

The listings are in alphabetical order, and the following information is provided:

1. Business name and address
2. Phone, email, and contact name
3. Business description of services or goods provided
4. Certified Status with the PA Department of General Services
 - **MBE**
Minority Business Enterprise
 - **WBE**
Woman Business Enterprise
 - **VOBE**
Veteran Owned Business Enterprise

5. Other Certifications

- **SBA 8(a)**
Business Development Program certified by the SBA
- **PA UCP M/WBE**
Minority and/or Women Business Enterprise certified by the PA Unified Certification Program

If you wish to be included in the next edition of this directory, please contact the Business Development Program Administrator. Contact information is provided on the back cover.

HUD and Section 3 Job Creation

The U.S. Department of Housing & Urban Development (HUD) awards the County of Bucks annual program funds through the Community Development Block Grant (CDBG) Program, HOME Program, Emergency Solutions Grant (ESG) Program, and the Supportive Housing Program (SHP).

HUD requires, to the greatest extent feasible, that recipients of HUD funds, including their contractors and subcontractors, provide jobs and other economic opportunities to low-income persons, women, and minorities. Section 3 seeks contracting opportunities for businesses owned by low-income people, or businesses that provide full-time employment to low-income people, and their subcontractors. Contracting opportunities are not just limited to the construction industry; businesses providing services, administration, and /or management functions are also eligible. The County of Bucks encourages our program award recipients to engage in Section 3 practices. For additional information on Housing & Urban Development Section 3, please visit: www.hud.gov/offices/fheo/section3.

Pennsylvania Department of General Services Certification

The Department of General Services (DGS) oversees the certification of minority-owned and women-owned businesses for the Commonwealth of Pennsylvania. Within DGS, the Bureau of Minority and Women Business Opportunities handles certification and provides assistance to Minority Business Enterprises (MBE's) and Women Business Enterprises (WBE's).

State certification confirms the business is:

1. at least 51 percent owned and controlled (management and operations) by qualified minorities and/or women
2. a small business with less than 100 employees
3. owned by a U.S. citizen, with training or experience in their business field
4. in business for at least 1 year, or has had a 2-year business plan reviewed by a Small Business Administration (SBA) Small Business Development Center (SBDC). Locally, SBDC's are at Lehigh University, Temple University, and the University of Pennsylvania.
5. independent of any other business entity
6. a for-profit business
7. qualified to provide the goods and services for which it is being certified
8. has a vendor registration number through the Commonwealth of Pennsylvania

For additional information, please visit: www.dgs.state.pa.us.

[Pennsylvania Unified Certification Program](#)

The Pennsylvania Unified Certification Program (PA UCP) makes certification decisions on businesses seeking participation on Federal Aviation Administration (FAA), Federal Highway Administration (FHWA), and Federal Transit Administration (FTA) funded contracts as a Disadvantaged Business Enterprise.

PA UCP certification confirms that the business is:

1. At least 51 percent owned and controlled by socially and economically disadvantaged persons
2. A for-profit small business concern
3. Owned by a U.S. citizen or a lawfully admitted permanent resident
4. A socially and economically disadvantaged person is
 - a. Any individual who the PA UCP finds to be socially and economically disadvantaged on a case-by-case basis
 - b. A qualified minority or women

For additional information, please visit www.paucp.com.

SBA Certification

The U.S. Small Business Administration (SBA) is a government agency whose goal is to help small businesses by giving them the tools they need to succeed. The SBA accomplishes this through a variety of financial, technical, and procurement assistance programs. The SBA provides business certification through the 8(a) Program.

8(a) Business Development Program

The 8(a) Program is a nine-year business development program for small businesses that fit the SBA's criteria of being socially and economically disadvantaged. The 8(a) program provides the businesses with access to government contracting opportunities in the federal marketplace. It also provides specialized business training, counseling, marketing assistance, and high level executive development to its participants. For additional information regarding the 8(a) Business Development Program, please visit: www.sba.gov/8abd/.
