

ADULT CLASSES IN TILE & MOSAIC

Bucks County Department of Parks & Recreation

Moravian Pottery & Tile Works

Mosaics

Learn how real Moravian mosaic panels are made! Combine smoky matt surfaces with glossy glazes to achieve a classic blend of surface, texture and color. This intro class for beginners will explore making mosaics using the traditional techniques of the Tile Works. Each student will start by creating their design for a mosaic, and carry it through the process all the way to mounting in a cement bed. Students will be limited to a maximum 12" x 16". Classes meet weekly for 5 sessions from 9am – 12pm. **\$190**

Mosaic Making # 001 Sundays Mar 29 - May 03, 2015

Mosaic Making # 002 Saturdays Jan 10 - Feb 07, 2015

Handpainted Tiles

Ever notice the old Spanish wall tiles in the Fonthill Museum? Many are made using a 16th century technique that allows one to fill in colors to achieve an easily handpainted tile. Students will inscribe their own line drawings into plaster blocks and use those blocks to press out tiles with raised lines. These raised lines will act as retaining walls that we will use to keep the glaze in place as we paint them. Each student will make 4 (4" x 4") designs and press and glaze about 20 tiles. Classes meet weekly for 5 sessions from 9am – 12pm. **\$190**

Hand-painted Tiles #003 Sundays Jan 04 – Feb 01, 2015

Hand-painted Tiles #004 Saturdays Feb 21 – Mar 21, 2015

Of Molds and Tiles

Learn how to make a plaster master mold and a production mold. Students will carve a design into a plaster block to make a master mold and then cast a plaster production mold they can use to press tiles. These pressed tiles will look like their master mold design. Student will make one master and one production mold. Each student will produce about 20 glazed tiles of their design. These tiles will be dipped in glazes and not hand-painted. **\$190**

Molds #005 Saturdays Feb 15 – Mar 15, 2015

Molds #006 Sundays Apr 04 – May 02, 2015.
